Pioneer Funds Annual Report 2013

Annual Commentary on the Financial Markets

Economy

The global economy posted a solid headline recovery in 2013, albeit with a different mix of contributors to economic growth as emerging markets lost pace while the United States and other developed nations regained strength. This change reflected the influence of monetary policy on global economic growth as throughout the year central banks in developed regions, led by the US Federal Reserve (Fed), continued to boost the money supply to help their economies. In contrast, leading emerging markets such as Brazil and India could barely afford to cut interest rates amid inflation concerns. Nevertheless, the global economy appeared to be on a firmer footing so that major forecasters, such as the International Monetary Fund, revised the GDP growth outlook upwards.

As the year progressed, the Eurozone struggled to get out of recession as its peripheral countries, led by Italy and Spain, laboured to regain economic strength amid weak bank lending and record-high unemployment. Against this backdrop, the European Central Bank (ECB) cut benchmark interest rates further towards year-end, while estimating that GDP growth will only resume in 2014.

Following the victory of the main electoral party, Japan did set off in earnest on the path of radical monetary easing when in April 2013 the Bank of Japan launched a bond-buying program that surpassed even the scale of the Fed's \$85 billion-a-month program as a share of GDP. Overall, in 2013 loose monetary policies were strongly upheld both in the Eurozone and in Japan, despite the Fed's intent to withdraw its flagship bond-buying program (known as quantitative easing (QE)) on the back of a stronger US economy.

In the US, cuts in government spending and the prospect of higher taxation did not put the brakes on economic recovery, which was strongly supported by domestic consumer expenditure and later in the year, by corporate investments. More jobs, a rising stock market and housing market helped propel the net worth of US households.

The two-year budget deal reached by the US Congress at year-end defused most economic uncertainties and prompted the Fed to start the gradual withdrawal of monetary stimulus, a process also known as tapering of QE. The US unemployment rate, which declined from a recessionary peak of 10% in 2009 to less than 7% in 2013, was to become the main gauge for the implementation of tapering. At its December meeting, the Fed judged the US economy healthy enough to receive less support and decided to cut back the bond-buying program by \$10 billion at each subsequent policy meeting in 2014, provided the US economy continues to improve.

The global rebalancing between developed and emerging countries globally was felt more by the financial markets than in the respective real economies. While China's economy grew at the slowest rate in 20 years, it avoided a "hard landing" as the slowdown was largely the result of a planned domestic rebalancing with consumers driving GDP growth at the expense of corporate investment in order to make GDP growth more stable over time. Moreover, China was largely sheltered by its vast currency reserves, while other big emerging countries went through a difficult period in 2013.

In India, decelerating growth and rising consumer prices exerted a lot of pressure, especially in the summer, when the Indian central bank raised key lending rates to protect the falling currency. Most Latin American countries disappointed in 2013, notably Brazil, which expanded just over 2% (about half as much as early forecasts). Like in India, the central bank was not in a position to help the economy by lowering interest rates, but was forced to raise them in an effort to curb inflation.

Markets

Global overview

In 2013, European equity markets managed to follow the global trend and posted good results on a broad basis. In the Eurozone, weak bank lending curbed the overall performance early in the year, but optimism over balance-sheet adjustments prior to the ECB's review of bank assets benefitted the financial sector and the broad market as a result. As the risk of a collapse of the European Monetary Union ("EMU") faded, the euro strengthened across the board on expectations that the ECB would not resort to overly loose policies.

Market sentiment was driven by monetary policy, with the key event being the Fed's early announcement at its June policy board meeting that it would begin to scale back its QE program. This announcement led to increased concerns compared to when the program's implementation was finally decided later in the year. Ultimately, investors realised that the pace of tapering would be gradual enough to prevent the reduced liquidity from disrupting financial markets. While the Fed was expected to reduce its asset purchases from September, it opted for a delay on the back of concerns that the tightening in financial conditions (higher Treasury yields leading to an increase in mortgage rates and other borrowing costs) and political disagreement over fiscal policy would put the brakes on the recovery. The US corporate sector was confirmed to be in robust health, with profits increasing across sectors. Companies with a stronger domestic exposure were supported by the US economy's renewed strength and that helped offset the slowdown in demand from major emerging markets, led by China.

In 2013, Japan was back on investors' minds thanks to radical measures to increase the size and scope of a QE program in order to abolish deflation. Stock markets reacted very positively thanks to a weaker yen on currency markets, and large Japanese exporters regained some competitiveness.

Pioneer Funds Annual Report 2013

Annual Commentary on the Financial Markets (continued)

On the other hand, emerging markets faced several headwinds amid economic transitions. In China, the new leadership sought to move to a more sustainable and consumption-driven growth model, while reigning in excessive lending. This structural change led to weaker demand for natural resources hurting economies such as Brazil and Russia, which are highly reliant on commodity-driven exports and revenues. Emerging markets used to be a prime beneficiary of the increased liquidity resulting from ultra-loose monetary policy in the US, and proved vulnerable to the Fed's planned tapering process. Emerging market shares had some relief when the Fed postponed its tapering in September, but pressure barely ceased for countries with high external imbalances such as India and other Asian countries.

Asset Class Review

Equities: Welcoming the Fed's smooth tapering of QE

When the Fed initially outlined its tapering plan in June, this caused some concerns to financial markets. However, volatility subsequently receded and overall, US equities regained momentum and posted new highs throughout 2013. Regarding company fundamentals, quarterly reports confirmed a picture of improving profitability across sectors, extending eventually to the Financials sector, which accounted for a much larger part of the broad market rally than in previous years.

European equities managed to keep pace with the US rally while tracking it closely. Europe's leading central bankers wanted to make it clear that the anticipated normalisation in US monetary policy would not lead them to change their policy stance and stop helping the still-fragile European economy with loose monetary conditions. Early signs of an economic turnaround in Europe and improving corporate surveys managed to offset evidence that GDP growth was barely recovering.

In 2013, European bank stocks took part in the equity market rally, almost rivalling other sectors, as investor confidence in the overhaul of bank balance sheets grew. Those European big lenders that increased their capital buffers in advance of the ECB asset quality review (either by their own initiative or by instigation from domestic and international regulators) were duly rewarded by financial markets. Most of them were able to repay the funds borrowed from the ECB well in advance of the original three-year maturity.

Data from the ECB show that loans to non-financial companies continued to fall in the Eurozone as a whole, but the decline was largely accounted for by Spain and other peripheral countries. The ECB acknowledged that this fragmentation of the Eurozone continues to be a major stumbling block to a sustainable recovery and was ready to take any supportive measures, including unconventional or untested ones, to prevent further risks (such as deflation) to the recovery.

Japan's stock market was the best performer in the G7, although this was largely due to earlier cheap valuations. The new course of economic policies helped regain investor confidence, as the Japanese government wholly embraced QE to eradicate deflation after almost two decades of stagnation. Exports accounted for a lot of GDP growth in 2013 as the sharply weakened yen helped regain competitiveness.

China was well represented in the emerging markets sell-off, as investors stopped believing in unlimited strong growth in the area. The ambitious reform plan unveiled by China's new leadership in November may be able to get the Chinese economy ever closer to developed-world standards. However, the problem may lie with bank reform, as the central bank (PBOC) tried to curb excess lending by any means necessary and with no fears about placing some lenders in a liquidity crunch position. Going forward, high volatility in interbank rates may unsettle a financial sector that alone stands for around 40% of China's broad stock market. In a highly fragmented Chinese equity market, consumer goods stocks made up for most bank stocks' losses, suggesting that the transition to a consumer-driven economy may already be at a relatively advanced stage.

Bonds: Settling down after a mid-year surge in volatility

Bond investors were unnerved by the anticipated end to the Fed's QE program. As it was meant to keep bond yields down, the program's expected termination led to a sharp rise in US Treasury yields notably at the long end. This reaction was reminiscent of past economic recoveries, when investors sold off government bonds in an attempt to fend off the risk of inflation. This time, however, the sell-off proved short-lived, as inflation remained under control thanks to subdued wage growth and falling commodity prices. Therefore, in the second half of the year US Treasury yields settled down and closed the year not too far from record lows.

Despite different economics conditions between the US and the rest of the developed world, US Treasuries remained the benchmark in fixed income and drove other markets in 2013. In the Eurozone, the German bund moved almost in parallel with US Treasuries whereas other markets seemed to benefit from stable core bond yields and lower credit spreads. The commitment of the ECB to maintain loose monetary conditions in order to help the economy and prevent new risks such as deflation was supportive to credit markets.

Overall, credit markets at large proved resilient even as concerns surfaced over emerging markets' credit standings. Indeed, emerging markets were the main casualties of the Fed's tapering of QE.

Among corporate issues credit spreads remained close to cycle lows, as conservative financial policies held company balance sheets in good financial health and kept the default rate from rising.

Pioneer Funds Annual Report 2013

Annual Commentary on the Financial Markets (continued)

Currencies: Strong euro despite a fragile economy

Currency markets barely reflected macroeconomic variables in 2013. As the US Fed set the timeline for tapering the QE program, the US dollar looked poised to benefit from the prospect of higher interest rates. However, as the timing of the first increase of policy interest rates from a record-low of 0.25% may only be decided in 2015, the transition seemed to be too long to support the US dollar, whose effective (trade-weighted) value did not increase across the board.

The price action of 2013 confirmed the euro as a relatively strong currency notwithstanding the struggling economies of some EU member states. Traders betting on an impending EMU collapse in all likelihood left the market, but there was probably an overhang of bearish positions prone to liquidation, even as the prospect of a real economic recovery became more tangible. Also supportive for the euro was the fact that buoyant economic data cooled down expectations that the ECB will resort to unconventional measures such as a US-style QE program, to revive the economy.

The US dollar strengthened against most emerging market currencies instead, as investors downgraded the growth outlook of a few large countries, such as India and Brazil, on concerns about external imbalances and other poor economic fundamentals. China's currency held the ground most thanks to the country's massive foreign-currency reserves.

Among major currencies, the US dollar rose the most against the Japanese yen, as a result of Japan's adoption of aggressively loose monetary policies. As a percentage of GDP, the amount of money created by the Bank of Japan's bond-purchase program dwarfed the US version and this monetary boost helped weaken the yen to the benefit of large exporters.

The Board of Directors

Pioneer Asset Management S.A.

Luxembourg, 28 April 2014

Risk Disclosure (unaudited)

The Management Company uses a risk management process that allows monitoring the risks of the portfolio positions and their Share of the overall risk profile of the portfolios on the managed funds at any time. In accordance with the amended Law of 17 December 2010 relating to Undertakings for Collective Investments and the applicable regulatory requirements of the *Commission de Surveillance du Secteur Financier* (“CSSF”) the Management Company reports to the CSSF on a regular basis on the risk management process. The Management Company assures, at the basis of appropriate and reasonable methods, that the overall risk, associated with derivatives, does not exceed the Net Asset Value of the Sub-Fund. In accordance with the requirements of the Regulatory Authority, this risk-management process measures the global exposure of each Sub-Fund with the Value-at-Risk (“VaR”) approach.

Value-at-Risk

In financial mathematics and risk management, the VaR approach is a widely used risk measurement of the maximum potential loss for a specific portfolio of assets, due to market risk. More specifically, the VaR approach measures the maximum potential loss of such a portfolio at a given confidence level (or probability) over a specific time period (so called holding period) under normal market conditions. Absolute VaR or relative VaR are applied as disclosed in the table below.

Relative VaR approach:

Relative VaR links the VaR of the portfolio of a Sub-Fund with the VaR of a reference portfolio. The reference portfolio is a matching portfolio in comparison to the Sub-Fund’s investment policy. The relative VaR of the Sub-Fund shall not exceed twice the VaR of its reference portfolio. The reference portfolio used by each Sub-Fund is set out in the Table below. The lowest, the highest and the average utilisation of the VaR limit calculated during the year from 01 January 2013 to 31 December 2013 are set out in the table below.

Absolute VaR approach:

Absolute VaR links the VaR of the portfolio of a Sub-Fund with its Net Asset Value. The absolute VaR of any Sub-Fund shall not exceed 20% of the Sub-Fund’s Net Asset Value (determined on the basis of a 99% confidence interval and a holding period of 20 business days). This is equivalent to 14.14% for a 10-day holding period applied by the Management Company. The lowest, the highest and the average utilisation of the VaR limit calculated during the year from 01 January 2013 to 31 December 2013 are set out in the table below.

The VaR has been calculated using the historical simulation with a confidence interval of a 99%, a holding period of 10 days, an observation period of 252 days (equally weighted).

Sub-Fund	Starting Period	Ending Period	Market Risk Calculation	Lowest Fund VaR Utilisation	Highest Fund VaR Utilisation	Average Fund VaR Utilisation	VaR Utilisation Limit	Reference Portfolio (if any)

* During the period from 10 May 2013 to 14 May 2013 (3 business days) the regulatory 200% (VaR) limit was exceeded. The required documentation has been filed with the home regulator.

** The last 7 business days (07 November 2013 until 15 November 2013) are not considered for the purpose of highest, lowest and average Fund VaR Utilisation as the Sub-Fund was in its liquidation process and the resulting VaR figures on those dates were not reasonable due to booking effects.

*** The name of the Sub-Fund has changed. Please refer to the note 16 for more information.

Leverage

The use of financial derivative instruments may result in a Sub-Fund being leveraged. Leverage is monitored on a regular basis and is measured as a percentage of each Sub-Fund's Net Asset Value and as the sum of notionals of the financial derivative instruments used.

The leverage for each Sub-Fund is not expected to exceed the levels set out in the Table below. However, under certain circumstances (e.g. very low market volatility) the leverage may exceed these levels. The average leverage level observed during the year from 01 January 2013 to 31 December 2013 using weekly observations is also specified in the table below.

Sub-Fund	Starting Period	Ending Period	Maximum expected level of leverage	Realized average level of leverage

Pioneer Funds

Notes to the Financial Statements as at 31 December 2013

Capitalised terms in these Notes should be attributed the same meaning as given to them in the prospectus of the fund unless specifically stated otherwise.

1. Description of the Fund

Pioneer Funds (the “Fund”) is organised as a *Fonds Commun de Placement* (“FCP”) with several separate Sub-Funds (individually the “Sub-Fund” and collectively the “Sub-Funds”). The Fund is an Undertaking for Collective Investment in Transferable Securities (“UCITS”) qualifying under Part I of the amended Luxembourg law of 17 December 2010 relating to Undertakings for Collective Investments (“UCI”) and is governed by the Management Regulations effective as of 07 August 2013.

The Fund is an unincorporated co-partnership of its securities and other assets, managed by Pioneer Asset Management S.A. (the Management Company”). The Management Company was incorporated on 20 December 1996 for an unlimited period of time. Its Articles of Incorporation were last amended effective on 04 October 2013 and published in the *Mémorial* on 21 October 2013. The assets of the Fund are segregated from those of the Management Company.

The assets of the different Sub-Funds are separately invested in accordance with their respective investment policies and objectives. All Sub-Funds are denominated in Euros or in USD or in GBP (the “Base Currency”) and all assets and liabilities of each Sub-Fund are valued in the Base Currency of such Sub-Fund.

The unitholders are allowed to subscribe in Euros, US dollars, Swiss francs and British pounds or such other freely convertible currency upon a decision of the Board of Directors of the Management Company. Net Asset Value per Unit in a currency different from the euro represents the daily conversion of the NAV per Unit in euro.

As at 31 December 2013, 69 Sub-Funds were active as detailed below. The Fund offers a number of different Unit Classes. Details of these Unit Classes can be obtained in the Fund’s prospectus. The Unit Classes that are currently in issue or that were in issue for part of the year are detailed in the statement of Unit statistics from page 66 to page 153.

Notes to the Financial Statements as at 31 December 2013 (continued)

2. Significant Accounting Policies

Presentation of financial statements

These financial statements are prepared in accordance with Luxembourg legal and regulatory requirements relating to undertakings for collective investment in transferable securities and generally accepted accounting principles.

The financial statements reflect the Net Asset Values ("NAV") as calculated on 31 December 2013 based on market prices of the investments as at 31 December 2013. Due to the Bank Holiday in Tokyo on 31 December 2013 the Net Asset Value of Pioneer Funds - Japanese Equity is reported as of 30 December 2013.

Valuation of investments and other investments

The following accounting policies apply:

Valuation of investments

Investments which are quoted or dealt in on a stock exchange or on a Regulated Market or any Other Regulated Market are valued at the last available price at 6.00 p.m. Luxembourg Time of the relevant Valuation Day except for the Sub-Funds listed below:

1. Pioneer Funds - Euro Strategic Bond,
2. Pioneer Funds - Euro High Yield,
3. Pioneer Funds - Strategic Income,
4. Pioneer Funds - U.S. High Yield,
5. Pioneer Funds - Global High Yield,
6. Pioneer Funds - Emerging Markets Bond Local Currencies,
7. Pioneer Funds - Emerging Markets Bond,
8. Pioneer Funds - Global Multi-Asset,
9. Pioneer Funds - U.S. Pioneer Fund,
10. Pioneer Funds - U.S. Research,
11. Pioneer Funds - U.S. Fundamental Growth,
12. Pioneer Funds - U.S. Research Value,
13. Pioneer Funds - North American Basic Value,
14. Pioneer Funds - U.S. Mid Cap Value,
15. Pioneer Funds - Global Equity Target Income,
16. Pioneer Funds - Global Select,
17. Pioneer Funds - Global Ecology,
18. Pioneer Funds - Gold and Mining,
19. Pioneer Funds - Dynamic Credit,
20. Pioneer Funds - Emerging Markets Equity,
21. Pioneer Funds - Latin American Equity,
22. Pioneer Funds - Emerging Markets Corporate High Yield Bond,
23. Pioneer Funds - Emerging Markets Corporate Bond,
24. Pioneer Funds - Global Multi-Asset Target Income.

For these Sub-Funds, the underlying assets are valued at the last available prices at 10.00 p.m. Luxembourg time.

In the event that any assets held in a Sub-Fund's portfolio on the relevant day are not quoted or dealt in on any stock exchange or on any Regulated Market, or on any other Regulated Market or if, with respect of assets quoted or dealt in on any stock exchange or dealt in on any such markets, the last available price (as determined pursuant to the previous paragraph) is not representative of the fair market value of the relevant assets, the value of such assets is based on a reasonably foreseeable sales price determined prudently and in good faith by the Board of Directors of the Management Company.

Money Market instruments held in Money Market Sub-Fund are valued using the amortised cost method.

Under this valuation method, such assets are valued at their acquisition cost as adjusted for amortisation of premium or accretion of discount.

Open-ended and closed-ended UCIs

Units or Shares of open-ended UCIs are valued at their last determined and available Net Asset Value or, if such price is not representative of the fair market value of such assets, then the price is determined by the Management Company on a fair and equitable basis. Units or Shares of a closed-ended UCI are valued at their last available stock market value.

Foreign currency conversion

Assets and liabilities expressed in currencies other than the Base Currency of the relevant Sub-Fund are converted at exchange rates prevailing as at 31 December 2013.

Profit and losses arising on foreign exchange operations are recorded in the "Statement of Operations and Changes in Net Assets".

Transactions in foreign currencies are converted into the Base Currency of the relevant Sub-Fund at exchange rates prevailing on the transaction dates.

The exchange rates used as at 31 December 2013 are as follows:

1 EUR =		1 EUR =		1 EUR =		1 EUR =	
5.06120	AED	1.22550	CHF	7.46035	DKK	297.07500	HUF

8.35985	NOK	4.46400	RON	2.96050	TRY		

For the Sub-Fund Pioneer Funds - Japanese Equity, the exchange rates used as at 30 December 2013 are as follows (Market closed on 31 December 2013):

1 EUR =		1 EUR =		1 EUR =	
1.55035	AUD	145.1006	JPY	1.38145	USD
1.47285	CAD	8.8773	SEK		

Forward foreign exchange contracts

Forward foreign exchange contracts are valued at the forward rate applicable at the statement of net assets date for the period until their maturity. Net unrealised gains and losses from forward foreign exchange contracts are recorded in the "Statement of Net Assets"; realised gains and losses from foreign exchange contracts are recorded in the "Statement of Operations and Changes in Net Assets". The Fund also offers Hedged Unit Classes. All gain/(losses) on Hedged Unit Classes are allocated solely to the relevant Unit Class.

Financial futures contracts

Financial futures contracts are valued at the quoted price available on an official stock exchange (at the pricing points as described above under "Valuation of Investments"). Initial margin deposits are made in cash upon entering into futures contract. Net unrealised gains and losses from financial futures contracts are recorded in the "Statement of Net Assets"; realised gains and losses from financial futures contracts are recorded in the "Statement of Operations and Changes in Net Assets". When the contract is closed, the concerned Sub-Fund records a realised gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the opening transaction.

Options

When the Sub-Fund purchases an option with an upfront premium, it pays a premium and an amount equal to that premium is recorded as an investment. When the Sub-Fund writes an option with an upfront premium, it receives a premium and an amount equal to that premium is recorded as a liability.

The investment or liability is adjusted daily to reflect the current market value of the option.

Options which are quoted or dealt in on a stock exchange or on a Regulated Market or any Other Regulated Market are valued at the exchange-quoted price (at the pricing points described above under "Valuation of Investments"). OTC options are mark-to-market based upon daily prices calculated by third party agents and verified against the value received from the counterparty.

If the last known prices are not representative, the valuation will be based on the potential realisation value estimated by the Board of Directors with prudence and in good faith.

If an option expires unexercised, the Sub-Fund realises a gain or loss to the extent of the premium received or paid. Net unrealised gains and losses from options are recorded in the "Statement of Net Assets"; realised gains and losses from options are recorded in the "Statement of Operations and Changes in Net Assets".

Swaps Contracts

Sub-Funds may enter into different types of swap agreements such as interest rate swaps, swaptions, inflation-linked, credit default swaps and total return swaps. Net unrealised gains and losses from swap contracts are recorded in the "Statement of Net Assets"; realised gains and losses from swap contracts are recorded in the "Statement of Operations and Changes in Net Assets". Swaps are valued at fair market value as determined in good faith pursuant to procedures established by the Management Company.

Swaps are mark-to-market at each Net Asset Valuation calculation date. The market value is based on the valuation of elements laid down in the contract, and it is obtained from third party agents, market makers or internal models, pursuant to the procedures established by the Management Company.

Effective interest expenses/incomes on swaps are booked in full in the "Statement of Operations and Changes in Net Assets". Accrued expense/income on swaps are netted on each Net Asset Valuation calculation date for each swap contract and the resulting net balance is posted per swap, either as interest expense on swap or interest income on swap per swap, in the "Statement of Operations and Changes in Net Assets".

Reverse Repurchase agreements

When a Sub-Fund enters in reverse repurchase agreements the amount of cash lent to the counterparty is recorded as "Receivables on reverse repurchase agreements" under "Statement of Net Assets".

Interest generated is recorded as "Income on reverse repurchase agreements" under the "Statement of Operations and Changes in Net Assets". The securities received as collateral are mark-to-market daily.

Contracts For Difference (CFD)

At each valuation date, the difference in price between the opening price and the current market price of the underlying security to the CFD is recorded as the market value (unrealised gain or loss) of the contract; when the Sub-Fund enters a closing transaction, the difference between the opening notional amount and the closing notional amount of the underlying security is recorded as a realised gain or loss.

Pioneer Funds

Notes to the Financial Statements as at 31 December 2013 (continued)

2. Significant Accounting Policies (continued)

Income

Interest income is accrued on a daily basis. Dividends are shown net of withholding taxes deducted at source, and are recorded as income on the ex-dividend date.

Realised gain and loss

Realised gain and loss comprise the gain or loss arising on the trading of securities and other investments, financial futures contracts, forward foreign exchange contracts, options, CFDs, swaps and other investments during the year, and differences arising on the revaluation of other assets and liabilities denominated in foreign currencies at year end. Capital gains or losses are determined on the basis of weighted average cost of the investments sold except for future contracts and CFDs, where the First-In First-Out ("FIFO") methodology is applied.

Combined financial statements

The figures of each Sub-Fund are presented in their respective Base Currency. The combined financial statements are expressed in euros and the sum of the Sub-Funds' net assets which are in another currency are converted in euros at the exchange rates prevailing at year end. The combined financial statements are presented for information purposes only.

Swing Pricing

Since 3 September 2012, a "Swing Pricing" policy has been implemented in Pioneer Funds umbrella.

Significant net inflows or outflows in a Sub-Fund cause the Investment Manager to trade the Sub-Funds' securities, thereby incurring trading costs.

With Swing Pricing, a Sub-Fund's NAV is adjusted to account for trading costs incurred where unitholders' subscriptions and redemptions activity exceeds a Sub-Fund's predetermined threshold. Swing Pricing is a method of valuation which adjusts (swings) a Sub-Fund's NAV to account for these trading costs.

The aim is to protect the interests of non-dealing unitholders by ensuring the unitholders making significant subscriptions or redemptions contribute to the cost of their transactions.

Market conditions, trading costs and other Sub-Fund's data are used by the Management Company to determine which Sub-Fund's NAV may be affected by Swing Pricing, and the appropriate threshold and swing factor to be applied for each Sub-Fund. These are reviewed by the Management Company on a periodic basis.

During the year 2013, Swing Pricing was applied on the NAV per Unit of the following Sub-Funds:

Pioneer Funds - Emerging Markets Bond,

Pioneer Funds - Euro High Yield,

Pioneer Funds - European Equity Target Income.

The swing amounts posted during 2013 are booked in the "Statement of Operations and Changes in Net Assets" under "net subscriptions/redemptions".

There was no swing price adjustments as of 31 December 2013.

3. Management, Investment Management, Distribution and Performance Fees

The management fee is a percentage of the Net Asset Value of each Sub-Fund, which ranges, according the prospectus, from 0.10% to 2.50% p.a., depending on the relevant Unit Class. For Class X Units, the management fees are charged and collected by the Management Company directly from the Unitholder and will not be charged to the Sub-Funds or reflected in the Net Asset Value.

The management fee rates effectively applied as at 31 December 2013 are as follows:

Sub-Fund	Class A	Class B	Class C	Class D	Class E	Class F	Class H	Class I	Class J	Class N
Pioneer Funds - Euro Liquidity	0.30%	*	0.30%	*	0.30%	*	0.20%	0.00%	*	*

Pioneer Funds

Notes to the Financial Statements as at 31 December 2013 (continued)

3. Management, Investment Management, Distribution and Performance Fees (continued)

The distribution fee, when applicable, is a percentage of the Net Asset Value of each Sub-Fund, which ranges, according the prospectus, from 0% to 1.5% p.a. depending on the relevant Unit Class. As per prospectus no distribution fees were applied to Class X Units.

The distribution fee rates effectively applied as at 31 December 2013 are as follows:

Both management fee and distribution fee are calculated and accrued on each Valuation Day on the basis of the Net Asset Value of the Unit Class and are payable monthly in arrears.

The Investment Managers are paid by the Management Company out of the management fee payable to it in accordance with the Management Regulations of the Fund.

The Management Company may earn a performance fee for certain Classes of Units within certain Sub-Funds where the Net Asset Value per Unit of the Class outperforms its benchmark or performance hurdle during its performance period.

The performance period is a calendar year except for Euro Credit Recovery 2012, U.S. Credit Recovery 2014, Obbligazionario Euro 09/2014 con cedola (Euro Bond 09/2014 distributing), Obbligazionario Euro 10/2014 con cedola (Euro Bond 10/2014 distributing), Obbligazionario Euro 11/2014 con cedola (Euro Bond 11/2014 distributing), Obbligazionario Euro 12/2014 con cedola (Euro Bond 12/2014 distributing), High Yield & Emerging Markets Bond Opportunities 2015, Emerging Markets Corporate Bond 2016 and Europe Recovery Income 2017 Sub-Funds where the performance period is from the Launch Date until the Maturity Date.

The performance fee, which range from 10% to 25% (where applicable and depending on the Unit Class) is calculated by reference to the increase in the Class's assets over and above the increase in the benchmark or performance hurdle as adjusted for subscriptions into and redemptions out of the relevant Classes of Units during the Performance Period. The calculation is as follows:

- 1) where the benchmark or performance returns are positive, the Management Company earns a performance fee equal to the percentage (listed in Appendix I of the Prospectus) of the outperformance the relevant Classes of Units achieved over its respective benchmark subject, where applicable, to the High Watermark Principle (as defined below) during the Performance Period.
- 2) where the Sub-Fund's benchmark or performance hurdle declines over the Performance Period, the Management Company earns a performance fee equal to the percentage (listed in Appendix I of the Prospectus) of the positive performance that the relevant Classes of Units achieved subject, where applicable, to the High Watermark Principle during the Performance Period.
- 3) Where a Class performance exceeds the High Watermark and the benchmark or performance hurdle, but the excess performance against the High Watermark is less than the excess performance against benchmark or performance hurdle, then the performance fee is calculated by reference to the portion of the excess performance over the High Watermark and not the benchmark or performance hurdle.

As defined in the prospectus, the High Watermark principle establishes a Net Asset Value per Unit below which performance fees is not paid. It is set at the Net Asset Value per Unit of the relevant Classes at which the last performance fee was paid or, if no performance fee has ever been paid on that Class, at the Net Asset Value per Unit at which the Class was launched or, where a performance fee is introduced to that Class for the first time, at the Net Asset Value per Unit of the Class on the Business Day immediately preceding the date of introduction of the performance fee on that Class.

The Management Company applies at all times the high watermark principle when calculating the performance fee except in respect of Euro Credit Recovery 2012, Obbligazionario Euro 09/2014 con cedola (Euro Bond 09/2014 distributing), Obbligazionario Euro 10/2014 con cedola (Euro Bond 10/2014 distributing), Obbligazionario Euro 11/2014 con cedola (Euro Bond 11/2014 distributing), Obbligazionario Euro 12/2014 con cedola (Euro Bond 12/2014 distributing), U.S. Credit Recovery 2014, High Yield & Emerging Markets Bond Opportunities 2015, Emerging Markets Corporate Bond 2016 and Europe Recovery 2017 Sub-Funds.

The benchmarks or performance hurdles are calculated gross of management and other fees and charges based on a Total Return index unless otherwise specified.

3. Management, Investment Management, Distribution and Performance Fees (continued)

With regard to Euro Credit Recovery 2012, Obbligazionario Euro 09/2014 con cedola (Euro Bond 09/2014 distributing), Obbligazionario Euro 10/2014 con cedola (Euro Bond 10/2014 distributing), Obbligazionario Euro 11/2014 con cedola (Euro Bond 11/2014 distributing), Obbligazionario Euro 12/2014 con cedola (Euro Bond 12/2014 distributing), Europe Recovery Income 2017 and U.S. Credit Recovery 2014, the performance fee calculation is made on a “Total Return” basis, i.e., the calculation of the performance of each Class of Units includes any distribution and other income paid to Unitholders during the Performance Period.

For Units of High Yield & Emerging Markets Bond Opportunities 2015 and Emerging Markets Corporate Bond 2016 the performance fee is calculated in accordance with the provisions set out in its investment objective.

In respect of the Class F Units (other than Bond Sub-Funds), the performance calculation is performed on a “Price Index”, i.e., the calculation of the performance of the benchmark or performance hurdle is net of dividends.

In respect of the Class X Units, performance fee, if any, are charged and collected by the Management Company directly from the Unitholders and are not, therefore, reflected in the Net Asset Value.

Performance fees charged during the year are detailed in the Statement of Operations and Changes in Net Assets for the relevant Sub-Funds on pages 40 to 64.

4. Depositary, Administrator, Registrar and Transfer Agent Fees

The Depositary and Paying Agent and the Central Administrator receive out of the assets of the relevant Sub-Fund, a fee for their services as detailed below.

Depositary: The fee is a percentage of portfolio value at each month end of each Sub-Fund. It ranges from 0.003% to 0.5% p.a. depending on where the assets of the relevant Sub-Fund are held. The fee is calculated and accrued on each Valuation Day and is payable monthly in arrears.

Central Administrator: The fee for the main services provided, ranging from 0.01% to 0.05% p.a., is calculated and accrued on each Valuation Day on the basis of the Net Asset Value of the relevant Sub-Fund. It is payable monthly in arrears.

Registrar and Transfer Agent: The main components of the compensation for the services provided are the number of the existing active Unit Classes, the number of clients' accounts and the number of transactions processed.

5. Taxation

Under Luxembourg law, the Fund is not subject to any taxes on income or capital gains. However, the Fund is subject to the “*Taxe d'Abonnement*”, which amounts to an annual rate of 0.05% of its Net Asset Value for all Sub-Funds except for the Pioneer Funds - Euro Liquidity Sub-Fund, the Pioneer Funds - Euro Short-Term Sub-Fund, the Pioneer Funds - Absolute Return Currencies Sub-Fund, the Pioneer Funds - U.S. Dollar Short-Term Sub-Fund, the Pioneer Funds - Euro Cash Plus Sub-Fund and all Classes that are dedicated to Institutional Clients which are subject to an annual rate of 0.01% based on the Net Asset Value of the Sub-Funds at the end of each calendar quarter, calculated and paid quarterly.

Additionally, the value of the assets represented by Units held in other UCIs, provided such Units have already been subject to the subscription tax provided for in Article 174 of the amended law of 17 December 2010 relating to Undertakings for Collective Investments, is exempted from subscription tax.

Interest and dividend income received by the Fund may be subject to non-recoverable withholding tax in the countries of origin.

Withholding Tax Reclaim

During 2013, Withholding Tax claims have been filed in respect of the withholding tax applied on dividends paid during the recent years in selected European countries.

The decision to file a claim is taken by the Board of Directors of the Management Company based on the analysis of costs to be borne and maximum potential amount refunded. The costs for pursuing the reclaims are borne only by the Sub-Funds potentially entitled to the refunds and are recorded under “other charges” in the Statement of Operations and Changes in Net Assets.

During 2013, the following refunds have been received:

Sub-Fund	Currency	Amount received
Pioneer Funds - Absolute Return Bond	EUR	6,233
Pioneer Funds - Absolute Return Multi-Strategy	EUR	11,271
Pioneer Funds - Absolute Return Multi-Strategy Growth	EUR	5,415
Pioneer Funds - Global Multi-Asset	EUR	80,674
Pioneer Funds - Multi Asset Real Return	EUR	475
Pioneer Funds - Euroland Equity	EUR	895,000
Pioneer Funds - Core European Equity	EUR	1,671,007
Pioneer Funds - Top European Players	EUR	1,276,213
Pioneer Funds - European Equity Value	EUR	588,692
Pioneer Funds - European Research	EUR	3,415,059
Pioneer Funds - European Potential	EUR	678,171
Pioneer Funds - European Equity Target Income	EUR	432
Pioneer Funds - Global Equity Target Income	EUR	52,254
Pioneer Funds - Global Select	EUR	552,536
Pioneer Funds - Global Ecology	EUR	687,165
Pioneer Funds - Gold and Mining	EUR	35,156

These amounts are reported in the “Statement of Operations and Changes in Net Assets” as “Other Income”.

Pioneer Funds

Notes to the Financial Statements as at 31 December 2013 (continued)

6. Changes in Portfolios

A list of changes in the portfolio for the year ended 31 December 2013 is available free of charge at the registered office of the Management Company of the Fund.

7. Outstanding Forward Foreign Exchange Contracts, Outstanding Financial Futures Contracts, Outstanding Options Contracts, Outstanding Swaps Contracts and Outstanding Contracts For Difference

All details relating to the outstanding Forward Foreign Exchange Contracts, outstanding Financial Futures Contracts, outstanding Options Contracts and outstanding Swaps Contracts and Outstanding Contracts For Difference as at 31 December 2013 are presented with the individual Sub-Fund's Schedule of Investments.

8. Singapore Reporting Requirements

As of 31 December 2013, Pioneer Funds - China Equity, Pioneer Funds - Japanese Equity, Pioneer Funds - Asia (Ex. Japan) Equity and Pioneer Funds - Indian Equity had more than 10 investors per Sub-Fund.

9. Securities Lending

Pioneer Asset Management S.A. has entered into securities lending agreements for a number of its equity and fixed income Sub-Funds. In return for making securities available for loan throughout the year, the Sub-Funds participating in the programmes received a gross income of EUR 14,192,595; the net income of EUR 9,779,375 is reported in the "Statement of Operations and Changes in Net Assets".

Equity Lending Programme

Pioneer Asset Management S.A. has appointed BBH & Co ("BBH") as lending agent for the equity lending programme. As remuneration for their role BBH received a fee ("BBH fees") of 15% of the gross income generated by the programme.

Société Générale Bank & Trust received a fee ("SGBT fees") of 10% of the gross income generated by the programme to cover its operational costs related to it.

Pioneer Asset Management S.A. has appointed Pioneer Global Investments Ltd. ("PGIL") to research, organize, coordinate and oversee the securities lending programme. PGIL received a fee ("PGIL fees") of 5% of the gross income generated by the programme as compensation for its role.

The gross income received in 2013 was EUR 6,685,471; the net income of EUR 4,674,531 is reflected net of fees in the Statement of Operations and Changes in Net Assets.

As of 31 December 2013, the market value of the securities on loan was EUR 28,757,496 and they were secured against non-cash collateral for EUR 30,849,392, which represented 107.27% of the market value of the loan. The nature of the collateral received is sovereign debt issued by a subset of G10 countries.

The following table provides the breakdown of the total value of securities on loan, by Sub-Fund, as of 31 December 2013:

Sub-Fund	Currency	Market value of securities lent
Pioneer Funds - European Research	EUR	2,853,690
Pioneer Funds - Italian Equity	EUR	3,223,692
Pioneer Funds - Global Select	EUR	5,691,171
Pioneer Funds - Global Ecology	EUR	16,789,366
Pioneer Funds - Emerging Europe and Mediterranean Equity	EUR	199,577

The counterparties under the equity lending programme as of 31 December 2013 were: Goldman Sachs International, Credit Suisse Securities Europe, Citigroup Global Markets, Deutsche Bank, JP Morgan Securities, UBS and BNP Paribas Arbitrage.

Fixed Income Programme

Pioneer Asset Management S.A. has appointed Deutsche Bank AG ("Deutsche Bank") as lending agent for the fixed income lending programme.

As remuneration for their role Deutsche Bank AG received a fee ("Deutsche Bank fees") of 25% of the gross income generated by the programme. Société Générale Bank & Trust ("SGBT") receives a fixed global annual fee ("SGBT fees") representing for 2013 2% of the gross income to cover its operational costs related to it.

Pioneer Asset Management S.A. has appointed Pioneer Global Investments Ltd. ("PGIL") to research, organize, coordinate and oversee the securities lending programme. PGIL receive a fee ("PGIL fees") of 5% of the gross income generated by the programme as compensation for its role.

The gross income received in 2013 was EUR 7,507,124; the net income of EUR 5,104,844 is reflected net of fees in the Statement of Operations and Changes in Net Assets.

As of 31 December 2013, the market value of the securities on loan was EUR 2,967,457,218 and they were secured against cash and non-cash collateral for, respectively, EUR 1,974,252,213 and EUR 1,078,264,848, which represented in total 102.87% of the market value of the loan. The nature of the non-cash collateral is agreed between the Management Company and the agent. The securities received as non-cash collateral are OECD Governments Bonds, Corporates plus all Supranationals with a minimum rating of AA-/A-1 and any equity listed on a securities exchange in an OECD country.

The following table provides the breakdown of the total value of securities on loan, by Sub-Fund, as of 31 December 2013:

Sub-Fund	Currency	Market value of securities lent
Pioneer Funds - Euro Short Term	EUR	465,088,314
Pioneer Funds - Euro Cash Plus	EUR	35,439,946

Pioneer Funds - Europe Recovery Income 2017	EUR	1,931,147
Pioneer Funds - Absolute Return Bond	EUR	105,937,309
Pioneer Funds - Global Multi-Asset	EUR	1,345,523

The counterparties under the fixed income lending programme as of 31 December 2013 were: Abbey National, Barclays Bank, Barclays Capital Securities, BNP Paribas, Citigroup Global Markets, Commerzbank, Credit Suisse Securities Europe, Danske Bank, Deutsche Bank, Goldman Sachs International, ING Bank, Jefferies International, JP Morgan Securities, Merrill Lynch International, Mizuho International, Morgan Stanley, Nomura International, Royal Bank of Scotland, Société Générale and UBS.

As of 31 December 2013, the cash collateral was reinvested in the following instruments:

Instrument Type	Issuer Name	Currency	% Yield	Final Maturity Date	Market Value (EUR)
Open Deliverable Repo Agreement (1)	Barclays Bank	EUR	0.446000	OPEN	1,449,381
Open Deliverable Repo Agreement	BNP Paribas	EUR	0.200000	OPEN	183,531,069
Open Deliverable Repo Agreement	Danske Bank	EUR	0.446000	OPEN	12,770,423
Open Deliverable Repo Agreement	Jefferies International	EUR	0.200000	OPEN	104,996,380
Open Deliverable Repo Agreement	Mizuho International	EUR	0.950000	OPEN	48,416,600
Open Deliverable Repo Agreement	JP Morgan Securities	EUR	0.100000	OPEN	67,146,124
Open Deliverable Repo Agreement	Citigroup Global Markets	EUR	0.646000	OPEN	3,537,659
Open Deliverable Repo Agreement	Citigroup Global Markets	USD	0.300000	OPEN	7,482,536
Open Triparty Set 1 (2)	Nomura International	EUR	0.566000	OPEN	168,660,756
Open Triparty Set 1	Société Générale	EUR	0.566000	OPEN	516,587,972
Triparty Set 1	Merrill Lynch International	EUR	0.726000	03-Feb-2014	210,825,945
Triparty Set 1	Citigroup Global Markets	EUR	0.596000	10-Feb-2014	126,495,567
Open Triparty Set 2 (2)	ING Bank	EUR	0.566000	OPEN	268,021,677
Open Triparty Set 2	Société Générale	GBP	0.550000	OPEN	149,725,243
Triparty Set 2	Barclays Bank	EUR	0.526000	15-Jan-2014	84,330,378
Fixed Deposits (3)	Deutsche Bank	EUR	0.223000	02-Jan-2014	17,439,719

According to the prospectus, cash collateral received shall only be:

- placed on deposits with entities as prescribed in section 16.1. A. (6) of the Management Regulation (i.e. deposits with credit institutions which are repayable on demand or have the right to be withdrawn, and maturing in no more than 12 months, provided that the credit institution has its registered office in a Member State or, if the registered office of the credit institution is situated in an Other State, provided that it is subject to prudential rules considered by the Regulatory Authority as equivalent to those laid down in Community law);
- invested in high-quality government bonds;
- used for the purpose of reverse repurchase transactions provided the transactions are with credit institutions subject to prudential supervision and the Sub-Fund is able to recall at any time the full amount of cash on accrued basis;
- invested in short-term money market funds as defined in the "Guidelines on a Common Definition of European Money Market Funds".

(1) Deliverable Repo Agreement - A reverse repo transaction where cash is delivered directly to the borrower (counterparty) and securities collateral is delivered to the lender (client) in return.

(2) Triparty Repo: A reverse repo transaction where a third party custodian bank/clearing organization (collateral agent) act as an intermediary in the agreement, ensuring that both lenders and borrowers are protected; cash is delivered to the counterparty's account at the third party collateral agent and securities are delivered in return to the client account at the same third party.

In the **Triparty Repo set 1** the permitted security collateral consists of OECD Governments (including all debt issued by a country using the Euro as its official currency and with a minimum rating the same as Italy's).

In the **Triparty Repo Set 2** the permitted security collateral consists of OECD Governments, Corporates and Supranational (including all debt issued by a country using the Euro as its official currency and with a minimum rating the same as Italy's).

Pioneer Funds

Notes to the Financial Statements as at 31 December 2013 (continued)

9. Securities Lending (continued)

In both cases, all structured products are excluded but covered bonds and EGGB are included. Securities issued by a Counterparty will be not admitted as collateral for any transaction with that same counterparty.

⁽³⁾ **Fixed Deposits** - Cash collateral that is deposited at a financial institution. Permitted deposit takers and duration of deposits are defined in guidelines as set out by the Management Company.

Cash collateral deposits received in respect of the fixed income lending programme are managed as a pool.

The allocation of the cash collateral pool across the Sub-Funds is based on the collateral amounts still required after having considered the value of the securities lent that have been collateralised through non cash collateral received specifically by the relevant Sub-Fund.

Re-invested cash collateral shall be diversified in accordance with the diversification requirements applicable to non-cash collateral.

10. Reverse Repurchase Agreements

As of 31 December 2013, the Sub-Funds detailed below have open position in Reverse Repurchase Agreements ("RRA"), all with UniCredit AG, Munich and with a maximum maturity of 3 days. RRA are similar to securities loan, and are supported by a collateral (deposit) of securities. A RRA is an agreement under which an assigner (the counterparty) sells securities to an assignee (the Sub-Funds) whereby the assigner agrees to repurchase the same securities at a specified time and at a specified price, and the assignee agrees to return to the assigner these securities at a specified time and at a specified price.

Sub-Fund	Amount (EUR)	Market Value (EUR)
Pioneer Funds - Euro Liquidity	61,513,070.00	61,525,380.00
Pioneer Funds - Euro Short-Term	239,013,615.00	239,019,518.75
Pioneer Funds - Euro Cash Plus	157,522,320.00	157,564,105.20
Pioneer Funds - Euro Corporate Short Term	301,019,280.00	301,079,520.00
Pioneer Funds - Euro Bond	131,018,850.00	131,053,604.75
Pioneer Funds - Euro Aggregate Bond	53,946,000.00	53,960,310.00
Pioneer Funds - Euro Corporate Bond	307,991,700.00	308,073,399.50
Pioneer Funds - Global Aggregate Bond	6,984,950.00	6,985,492.50
Pioneer Funds - High Yield & Emerging Markets Bond Opportunities 2015	5,987,100.00	5,987,175.00
Pioneer Funds - Euro Strategic Bond	60,030,563.00	60,035,218.05
Pioneer Funds - Euro High Yield	320,007,880.00	320,071,920.00
Pioneer Funds - Emerging Markets Corporate High Yield Bond	1,989,800.00	1,990,420.00
Pioneer Funds - Emerging Markets Bond	104,994,900.00	105,022,751.50
Pioneer Funds - Absolute Return Bond	8,991,000.00	8,993,385.00
Pioneer Funds - Absolute Return Asian Equity	999,000.00	999,265.00
Pioneer Funds - Italian Equity	994,900.00	995,020.00
Total	1,763,004,928.00	1,763,356,485.25

All RRA are supported as collateral by Italian Government Zero Coupon Bonds with a maximum maturity of 30 September 2014. The securities received as collateral do not represent an investment of the Sub-Funds and are not reported in the "Schedule of Investments" section of the Financial Statements.

11. Collateral

As at December 31, 2013 the collateral received from brokers and counterparties for the purpose of transacting in OTC derivatives are as follows:

Sub-Fund	Sub-Fund Currency	Counterparty	Type of collateral	Collateral Amount Received (In Sub-Funds ccy)
Pioneer Funds - Euro Cash Plus	EUR	HSBC	Cash	410,000.00
Pioneer Funds - Euro Corporate Short-Term	EUR	Barclays Bank	Cash	2,170,000.00

12. Further Information for French Investors

Pioneer Funds – Euroland Equity

As at 31 December 2013 the fund invested 99,48% of its assets into Shares and warrants issued by companies having their head office in an EU or an EEA country, except Liechtenstein, and subject to corporate income tax under normal conditions.

Pioneer Funds – Core European Equity

As at 31 December 2013 the fund invested 96,33% of its assets into Shares and warrants issued by companies having their head office in an EU or an EEA country, except Liechtenstein, and subject to corporate income tax under normal conditions.

Pioneer Funds – Top European Players

As at 31 December 2013 the fund invested 99,26% of its assets into Shares and warrants issued by companies having their head office in an EU or an EEA country, except Liechtenstein, and subject to corporate income tax under normal conditions.

Pioneer Funds – European Equity Target Income

As at 31 December 2013 the fund invested 88,04% of its assets into Shares and warrants issued by companies having their head office in an EU or an EEA country, except Liechtenstein, and subject to corporate income tax under normal conditions.

Pioneer Funds – Italian Equity

As at 31 December 2013 the fund invested 98,77% of its assets into Shares and warrants issued by companies having their head office in an EU or an EEA country, except Liechtenstein, and subject to corporate income tax under normal conditions.

13. Transaction Costs

The transaction costs the Fund incurred in 2013 related to purchase or sale of financial instruments are disclosed in a specific expenses line of the “Statement of Operations and Changes in Net Assets”. Transaction costs include costs directly linked to the acquisition or sale of financial instruments and derivatives, to the extent that such costs are shown separately on transaction confirmations.

For some asset Classes, transaction costs are usually incorporated in dealing prices and are not reported separately.

Depending on the nature of the investments of the Sub-Fund, this may result in no data being reported in the transaction costs section for some Sub-Funds.

Transactions relating to securities lending and their associated costs are not included in these figures.

14. Proxy Voting Policy

The Management Company has implemented a Proxy Voting Policy, to enable the exercise of voting rights attached to the portfolio securities. The Management Company aims to cast proxy votes in a manner consistent with the best interest of the Funds. In voting proxies, consideration is given to the economic effect of the proposal on the value of portfolio holdings on both the short and long-term impact. In general, Pioneer believes that supporting the company’s strategy and voting “for” management’s proposals builds portfolio value. In some cases, however,

14. Proxy Voting Policy (continued)

proposals set forth by management may have a negative effect on that value, and consideration of this may affect the votes cast by the Management Company. Special consideration is given to issues relating to ethical Funds.

The Management Company exercises voting rights and, where it has authorised delegated investment managers to vote portfolio securities, it requires that they do so in accordance with the Proxy Voting Policy. Together, the Management Company and/or the Investment Managers may engage the services of an independent third party to assist in analysing proxies, Shareholder meeting recommendations, record keeping and voting services provided that the Service Provider provides its services in accordance with the Proxy Voting Policy.

15. Class Action

A class action is an action that allows to a group of investors to claim from a company or public institution to obtain financial compensation in the event of losses. The Management Company has engaged the services of two independent companies to assist in the class action activities and ensure a global coverage.

Costs paid upfront for the services related to the portfolio analysis, the collection of the custody data and the assistance in the other activities related to class actions are booked in the financial statements under "Other charges".

The amounts received when the class action are settled, are booked in the financial statements under "Other income".

In 2013, the Fund has received a total of USD 616,596 as a result of class actions.

16. Dividend Distribution

Distributing Classes: These Classes distribute a net income on a daily basis with a monthly payment.

Distributing Ex-Dividend: These Classes distribute a gross income on monthly basis.

Distributing Monthly: These Classes have a monthly distribution based on an annual target yield defined at the beginning of the year.

Distributing Quarterly: These Classes have a quarterly distribution based on an annual target yield defined at the beginning of the year.

Distributing Semi-Annually: These Classes distribute on a semi-annual basis the net income generated in the previous year or a dividend based on an annual target yield defined at the launch date/beginning of the year.

Distributing Annually: These Classes distribute on an annual basis the net income generated in the previous year or a dividend based on an annual target yield defined at the launch date/beginning of the year.

Dividend distribution policy is described in the prospectus of the Fund for further details. No distribution other than those described in the prospectus have been done during the year.

Implementation of Minimum Holding Provision

Unitholders should note that the Management Regulations have been amended to include the following provision:

In addition to any applicable minimum amounts for initial or subsequent investments, the Management Company may also require that Unitholders maintain a minimum account value of EUR 1,000 (or the equivalent in another currency). Should any Unitholder hold less than EUR 1,000 in their account, the Management Company reserves the right to notify affected Unitholders of its intention to sell their Units (without applying any redemption fee as the case may be) and close their account. Unitholders will be given 60 days from the date of the notice to make additional investments to avoid having their Units sold. This policy does not apply to accounts with automatic investment plans.

17. Important Events (continued)

Investment Management Change

As of 07 August 2013, Mitsubishi UFJ Asset Management (UK) Ltd. has been appointed as Investment Manager of the Pioneer Funds - Japanese Equity in replacement of Pioneer Investment Management Limited, Dublin. The decision to employ a specialist manager for the Sub-Fund has been made in order to strengthen the value proposition of the Sub-Fund and the return for investors.

Investment Objective Change

The existing investment policy of the Pioneer Funds - Euro Cash Plus Sub-Fund has been amended effective as of 7 August 2013 to include the following restriction: "The Sub-Fund will not invest in subordinated debt issued by banks".

18. Subsequent Events

On 28th March 2014 the Sub-Fund Pioneer Funds - Gold and Mining merged into Pioneer Funds - Real Assets Target Income.

B.P. 1173
L-1011 Luxembourg

We have audited the accompanying financial statements of Pioneer Funds (the “Fund”) and of each of its Sub-Funds, which comprise the Statement of Net Assets and the Schedule of Investments as at 31 December 2013 and the Statement of Operations and Changes in Net Assets for the year then ended and a summary of significant accounting policies and other explanatory notes to the financial statements.

Responsibility of the Board of Directors of the Management Company for the financial statements

The Board of Directors of the Management Company is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements, and for such internal control as the Board of Directors of the Management Company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of the *réviseur d'entreprises agréé*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the *Commission de Surveillance du Secteur Financier*. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the *réviseur d'entreprises agréé*'s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the *réviseur d'entreprises agréé* considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the Management Company, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of Pioneer Funds and of each of its Sub-Funds as of 31 December 2013, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements.

Other matter

Supplementary information included in the annual report has been reviewed in the context of our mandate but has not been subject to specific audit procedures carried out in accordance with the standards described above. Consequently, we express no opinion on such information. However, we have no observation to make concerning such information in the context of the financial statements taken as a whole.
