Signing into the online platforms of UniCredit

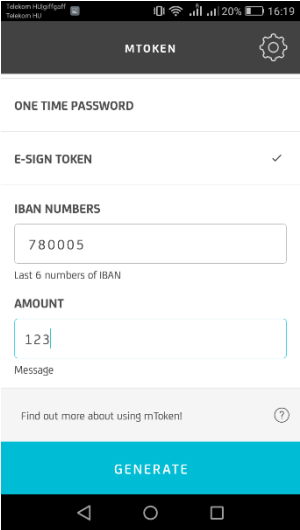

Step	Action	Screen	Comment
1.	Open the UniCredit app!	 The screenshot shows the UniCredit app's main menu. At the top, it says 'APPLICATIONS' with a settings icon. Below that is a large image with the text 'everything just in your pretty hands' and the UniCredit Bank logo. At the bottom, there are three buttons: 'BANKCARDS', 'GENERATE TOKEN', and 'ACTIVATE MY ACCOUNT'.	
2.	Touch the "Generate Token" option.	 This screenshot is identical to the previous one, but a red circle highlights the 'GENERATE TOKEN' button to indicate it should be selected.	
3.	Enter your mToken PIN code.	 The screenshot shows the 'MTOKEN LOGIN' screen. It has a back arrow at the top left. Below the title, there is a link 'Forgot your PIN code?' with a question mark icon. A text input field is labeled 'ENTER YOUR PIN CODE' and contains six dots. At the bottom, there is a blue 'LOGIN' button.	

	After entering the PIN, a flag will appear on the screen.		<p>In case you have entered the correct PIN, your security flag appears on the screen.</p> <p>In case you have given an incorrect PIN, the application will let you pass, but you will not be able to use the generated mToken when signing into the Internet Banking Service.</p>
4.	Touch "Yes".		
5.	Touch the "Generate" option.		You will be able to sign into eBanking account with the given mToken code.

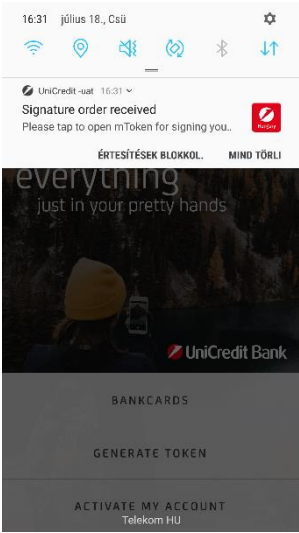

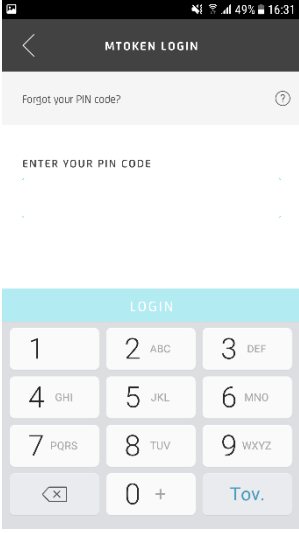

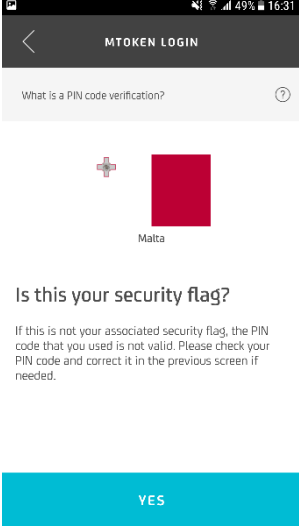

Signing an order by *generating a code* on the online UniCredit platforms

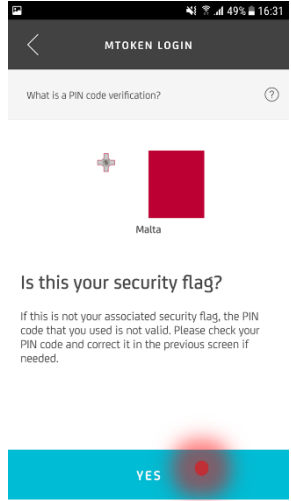

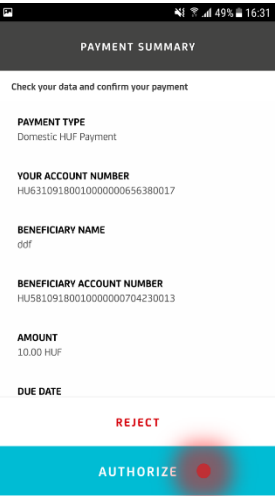

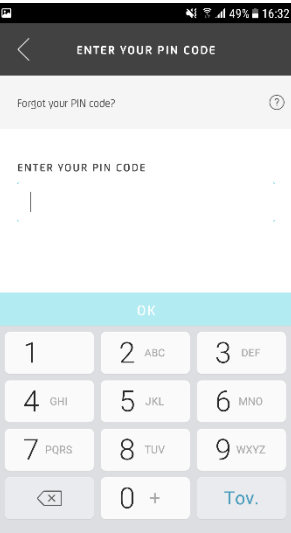

Step	Action	Screen	Comment
1.	Open the UniCredit app!		
2.	Touch the "Generate token" option.		
3.	Enter your PIN code.		

	<p>After entering the PIN, a flag will appear on the screen.</p>	 <p>The screenshot shows the 'MToken LOGIN' screen. At the top, it asks 'What is a PIN code verification?'. Below this is the Swedish flag with the label 'Sweden'. The main question is 'Is this your security flag?'. A note below says: 'If this is not your associated security flag, the PIN code that you used is not valid. Please check your PIN code and correct it in the previous screen if needed.' At the bottom is a large blue button labeled 'YES'.</p>	<p>In case you have entered the correct PIN, your security flag appears on the screen.</p> <p>In case you have given an incorrect PIN, the application will let you pass, but you will not be able to use the generated code to sign the transfer.</p>
4.	<p>Touch "Yes".</p>	 <p>This screenshot is identical to the previous one, but a red circle highlights the 'YES' button to indicate where to touch.</p>	
5.	<p>Touch the "E-sign token" option on the appearing screen. Enter the last 6 digits of the beneficiary's IBAN number and the transferable amount.</p>	 <p>The screenshot shows the 'MToken' main menu. It has a settings gear icon in the top right. The options are: 'ONE TIME PASSWORD', 'E-SIGN TOKEN' (which is selected with a checkmark), and 'IBAN NUMBERS'. Below 'IBAN NUMBERS' is a text input field labeled 'Last 6 numbers of IBAN'. Below that is an 'AMOUNT' input field and a 'Message' field. At the bottom is a 'GENERATE' button.</p>	

6.	Touch the "Generate code" option.		<p>With the given code, you can sign the order in eBanking.</p>
----	-----------------------------------	---	--

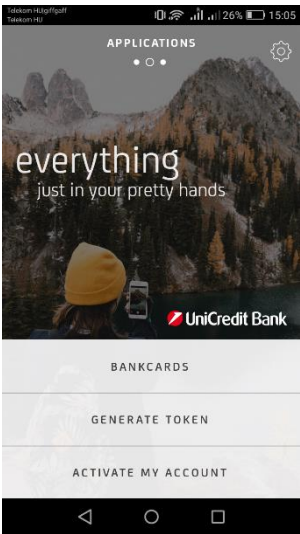

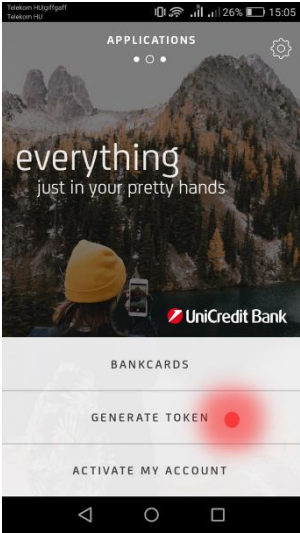

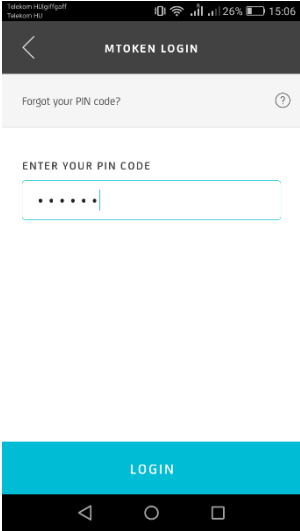

Signing an order with the *push-tan* function on the online UniCredit platforms

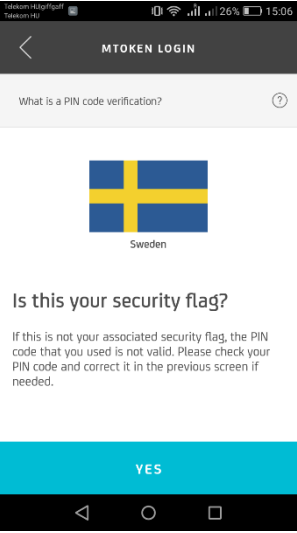

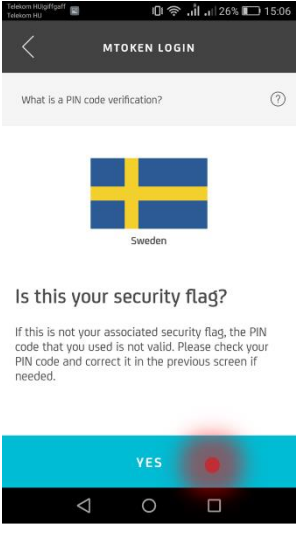

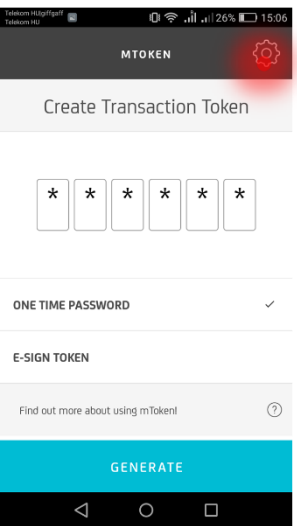

Step	Action	Screen	Comment
1.	Open the UniCredit notification.		
2.	Enter your PIN and touch "Login".		
3.	If you have entered the correct PIN, your safety flag appears on the screen.		

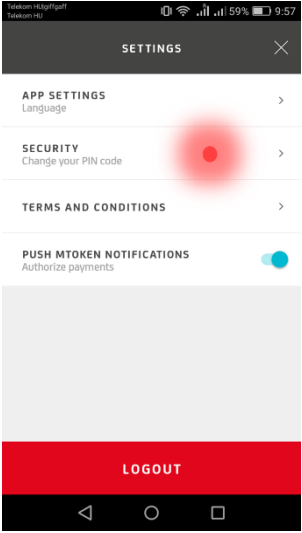

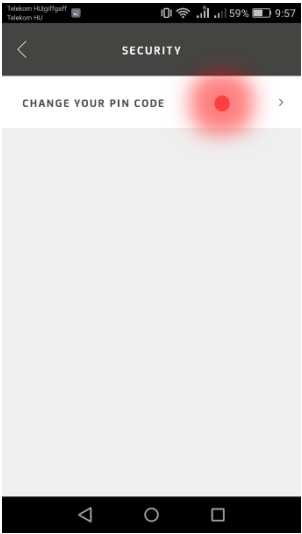

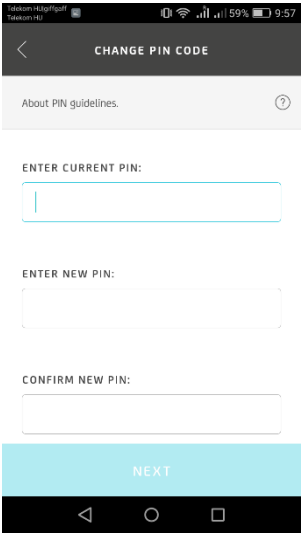

4.	Touch "Yes".	 <p>The screenshot shows the 'MTOKEN LOGIN' screen. At the top, it asks 'What is a PIN code verification?' with a help icon. Below is a red square representing a security flag, labeled 'Malta'. The text asks 'Is this your security flag?' and provides instructions: 'If this is not your associated security flag, the PIN code that you used is not valid. Please check your PIN code and correct it in the previous screen if needed.' At the bottom is a large blue button labeled 'YES'.</p>	
5.	Check the details of the transaction! If they are correct, touch "Authorize".	 <p>The screenshot shows the 'PAYMENT SUMMARY' screen. It asks the user to 'Check your data and confirm your payment'. The details listed are: 'PAYMENT TYPE: Domestic HUF Payment', 'YOUR ACCOUNT NUMBER: HUB310918001000000656380017', 'BENEFICIARY NAME: ddf', 'BENEFICIARY ACCOUNT NUMBER: HJ58109180010000000704230013', 'AMOUNT: 10.00 HUF', and 'DUE DATE'. At the bottom, there is a red 'REJECT' button and a large blue 'AUTHORIZE' button.</p>	
6.	Enter your PIN again.	 <p>The screenshot shows the 'ENTER YOUR PIN CODE' screen. It has a back arrow, a title, and a link 'Forgot your PIN code?'. Below is a text input field for the PIN. At the bottom is a numeric keypad with digits 1-9, 0, and a 'Tov.' button. Above the keypad is an 'OK' button.</p>	

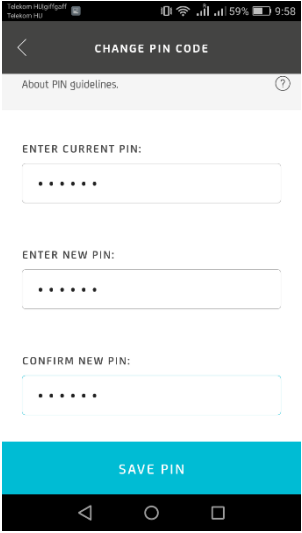

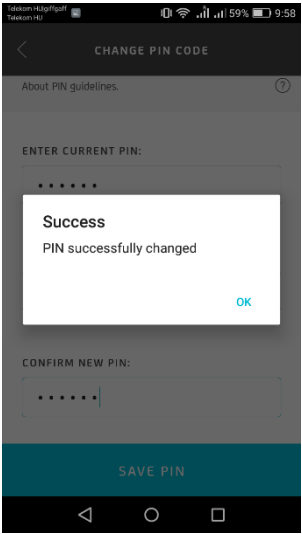

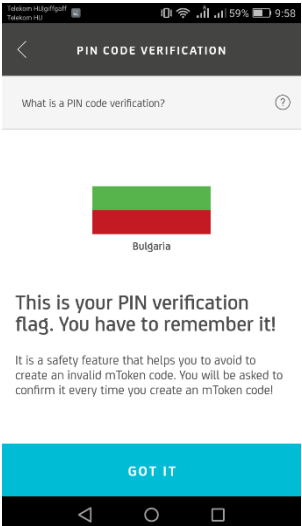

<p>7.</p>	<p>If you entered the PIN correctly, you have authorized the transaction.</p>		<p>Although you have authorized the transaction, you have to close it in eBanking.</p>
