1 When assessing the total savings amount, the Bank takes into consideration the following: overnight balance of accounts held at UniCredit Bank, balance of term deposits (for FX-based deposits, the HUF balance calculated on the central exchange rate for the given day applies), and the current market value of the available overall closing portfolio of securities accounts held at UniCredit Bank.

2 During the credit calculation, the Bank takes into consideration the amounts credited on the Client's UniCredit current accounts. In the case of incoming foreign currency transfers, the applied rate is identical to the exchange rate set by MNB valid on the last working day of the month prior to the given month.

The fulfillment of segment criteria is reviewed during the second half of each year, whereupon the Bank verifies whether or not Customers actually meet the eligibility criteria by examining the average balance of savings and the incoming monthly bank transfer of the last 6 months prior to the review.

The effect of the change in the Clients' status is not retroactive. The conditions of the credit and deposit products – already contracted – will remain unchanged until their expiry. The account conditions will change with the fulfillment of the mandatory notification obligation according to law CXII. of 1996 and to law LXXXV. of 2009. Clients can not apply for Premium Banking conditions after the status change.
