Definition of the Annual Percentage Rate (APR):

The Annual Percentage Rate (APR) is determined on the basis of the current conditions (in the case of a promotion, even for the period the promotion applies to, the regular interest published by the bank for the given loan type at the time of the publication) and in compliance with the effective legal regulations, i.e. Government Decree No. 83/2010 (III.25) on the definition, calculation and announcement of the Annual Percentage Rate. The APR can be modified if conditions change (in the case of a reference rate-linked interest rate, a change in the reference rate also qualifies as a change in conditions). The APR does not reflect the interest rate risk of the loan.

The value of the APR is calculated on the basis of a credit limit of HUF 375,000 in the case of UniCredit Narancs (Orange) and UniCredit Kék (Blue) credit cards, HUF 750,000 in the case of UniCredit Arany (Gold) credit cards and HUF 1,000,000 in the case of UniCredit Platina (Platinum) credit cards.
