In matters not regulated by these Terms and Conditions, the General Terms and Conditions, the Terms and Conditions for Retail Clients, the Terms and Conditions for Corporate Clients and Municipalities as well as any other terms and conditions effective at the Bank in the matter shall apply.

2. Definitions concerning bank cards

As regards the rules for debit card, charge card and credit card services, the following definitions shall apply with the stipulation that expressions not specifically defined by these Bank Card Terms and Conditions but still written in capital letters shall have the same meaning as those written in capital letters in the Bank's General Terms and Conditions.

2.1. **"ATM (Automated Teller Machine)"**: electronic terminal enabling the use of services available through the joint use of bank card and PIN code, in particular cash withdrawal, cash deposit, account balance enquiry, and concluding purchase type transactions (e.g. mobile phone account top-up). The bank accepting the card displays the transactions which may be concluded using the given bank card on the screen of the given ATM. The amount and method of calculation of the costs of

cash withdrawal, cash deposit and other transactions completed using an ATM are specified in the prevailing List of Conditions of the bank issuing the bank card.

- 2.2. **"Bank Card" or "Card"**: a plastic card of size 86 x 54 mm, bearing the logo of the Bank and/or an international bank card organization, with a magnetic stripe and/or data storage chip, issued to the card holder upon request of the Account Owner; it is an electronic means of payment equivalent to cash, which may be used to pay the counter-value of goods and services, and/or to access funds and/or to deposit funds at points where the card is accepted. The Bank Card issued by the Bank is the property of the Bank. The Bank Card is personalized and shall only be owned by a natural person.
- 2.3. **"Bank account"**: a payment account as specified in the General Terms and Conditions of the Bank.
- 2.4. **"Electronic Bank Card"**: a bank card product prepared using rotogravure, which is suitable for making transactions according to the specifications of the List of Conditions in electronic and potentially in virtual accepting environments.
- 2.5. **"Embossed Bank Card"**: an embossed bank card product which is suitable for making transactions in electronic, paper-based and virtual accepting environments, as well.
- 2.6. **"Contactless Card"**: (previous name: Card suitable for Contactless transaction) a Debit Bank Card with built-in antenna enabling it to complete Contactless transactions.
- 2.7. **"Bank Card Usage Limit" or "Limit"**: It refers to the restriction in the number of transactions as stipulated by the bank according to the List of Conditions, as well as to the threshold the Account Owner is entitled to define

for the daily (or for Business Credit Cards: monthly) bank card transactions in the event and in the manner specified by the List of Conditions. General (standard) limit types, amounts related to each limit type as well as the frequency of use for bank cards are set out in the List of Conditions. Upon request of the Account Owner or the Card Holder having a right of disposition over the account, individual limits for the use of specific bank cards different from standard limits shall be changed by the Bank, taking into account the restrictions set out in the List of Conditions. Any partial or total failure of systems participating in the authorization process may result in different usage limits. The above Limits set by the Bank shall not apply to the Transactions authorized without coverage verification (Off line-, and by International Card Organizations authorized Stand in Transactions).

- 2.8. **“Domestic Transaction”**: Any transaction shall be considered domestic if both the issuer (bank issuing the bank card) and the beneficiary (point of acceptance) are organizations incorporated in the Hungary with business locations in Hungary or with a right to accept cards in Hungary (based on the settlement data for the transaction, the country code of the point of sale shall be Hungary).
- 2.9. **“Debit Bank Card” or “Debit Card”**: a Bank Card making it possible for the card holder to submit payment orders or withdraw cash up to the amount of balance at sight of the bank account – or several accounts involved upon the Account Owner’s decision – , or up to the amount increased by the Credit Line linked to this account.

- 2.12. **“Charge Card”**: a Bank Card for which a Credit Line is fixed in all cases, and the Account Owner is required to settle all outstanding debts as at the end of the month from the bank account maintained with the Bank by the deadline specified in the agreement, in which case the Bank charges no interest for the amount of spending.

- 2.13. **“Individual electronic data”**: the Bank shall consider identification data stored on magnetic stripe or data storage chip as well as the PIN code as individual electronic data.
- 2.14. **“Electronic identification”**: a verification process through which the Card Holder and the payment transaction are identified by the Bank and the terminal on the basis of individual electronic data linked to the electronic means of payment.
- 2.15. **“Point of Acceptance”**: any domestic or foreign commercial firm making it possible for the Card Holder to access the goods or services sold by it without paying in cash, using Bank Cards bearing an international logo; or any payment service provider ensuring that the Card Holder may make Transactions using his/her Bank Card.

- 2.17. **“Pre-authorization”**: an Authorization Process which is not directly followed by the fulfilment of the transaction. Pre-authorization is not based on the effective amount but on the expected amount of the Transaction; in this case, the amount expected shall be reserved against the balance of the account set for the Card. Reservation means no real debiting but its purpose is only to ensure the necessary coverage for the effective amount of the transaction to be debited. Reservation may be cancelled by the acceptor commercial firm having launched pre-authorization either by termination of the pre-authorization resulting in the effective debiting of the transaction or by launching cancellation of a pre-authorization completed earlier at the issuer payment service provider through the acceptor payment service provider if, for example, payment is not done by the bank card used during the pre-authorization process. Typically, the following acceptor commercial firms may perform pre-authorization: hotels, car rental companies and travel agencies. Completion of pre-authorization: the Point of Acceptance shall complete the Transaction if the effective price of the product/service is paid using the same Bank Card that was used during pre-authorization. This shall validate pre-authorization as a financial transaction. Amounts of the two transactions may be different from each other.

- 2.18. **“Authorization Process”**: A message sent by the Bank as financial service provider issuing the Bank Card or its representative (authorization service provided under an agreement between the Bank and its representative) to the Point of Acceptance in which it either authorizes or rejects the completion of the Transaction based on the request for authorization.

The PIN code is required for a Contactless Transaction if the amount of the Transaction exceeds the value of the “Contactless Transaction Amount Limit” as defined in the prevailing List of Conditions and, for security reasons, also for transactions below the value of the “Contactless Transaction Amount Limit” according to the occasions specified in the prevailing List of Conditions. In case of a transaction amount below the “Contactless Transaction amount limit”, the issuance of the transaction slip is optional and it shall be issued at the Cardholder’s request.

- 2.22. **“Reservation”**: (i) blocking against the available balance of the account, equivalent to the amount for which authorization is requested (“Negative blocking”) or (ii) crediting to the account (“Positive blocking”) made during the Authorization Process. The limits of the relevant Transaction are operating during the Authorization Process related to the Reservation (in case of Negative blocking and Positive blocking as well). Financial settlements require confirmation, while cancellation requires instructions from the accepting payment service provider; in the absence of these, reservation may remain effective for a maximum of 14 bank business days. Taking into account the provisions of the List of Conditions, Card Holders using UniCredit’s SMS card service shall be informed of the amount of the Authorization Process (stated in HUF in all cases) in the form of an SMS message. In the case of authorizations requested in a currency other than HUF, reservation shall still be received by the Bank in HUF. Conversion into HUF shall be made by card organizations (Visa Inc, MasterCard Incorporated) using their applicable exchange rates. In the event that the account affected by the reservation is denoted in a currency other than HUF, the conversion of the reserved amount – expressed by the card organizations in HUF – into foreign currency shall be calculated based on the General Terms and Conditions.

The Bank shall send the Card by unregistered mail or registered mail either to the Client's notification address assigned to the account set as coverage for the Card or to another notification address in Hungary chosen from the Account Owner's postal addresses (as the Card holder prefers it). In case of renewed Credit Card, the card is sent to the Client's Notification Address in Hungary associated to Credit card transaction statement. The Credit Card Transaction Statement Mailing Address can also be modified through Telephone Banking - subject to proper Telephone Banking identification. The Bank shall accept no liability for any risks and damages arising from posting to the incorrect address provided as notification address by the Client or – upon the explicit request of the Client – forwarding to an address specified outside of Hungary via a carrier service. Debit and charge and renewed Credit Cards sent by post are

Aside from the adequacy of the authorization and the identification of the authorized person, the Bank assumes no responsibility for the risks and damages associated with the collection of the Bank Card and the PIN code by an authorized person. If the Card Holder or the person authorized by the Card Holder as specified above requests the Card to be delivered to him/her in the Bank but fails to collect it within 90 days following notification of the Bank on the issuance of the new Card or within 180 day following notification of the Bank on the issuance of the renewed Card, unless otherwise provided for, the Bank may invalidate and destroy the Card along with cancelling and deleting it from its systems, and may consider the Bank Card Agreement concluded/signed earlier with the Card Holder/Account Owner to be terminated. The Bank may charge card keeping fee for keeping safe any Card which is not collected; the amount of that fee is included in the Bank's prevailing List of Conditions.

3.31. If the Card is delivered in person in a branch, the Bank shall only deliver the Credit Card and the PIN code for certain credit cards to the Account Owner/Card Holder, and the Partner Credit Card and the PIN code for certain credit cards to the Partner Card Holder appearing in the branch. The Bank shall post the intact envelope with the PIN code for the credit card or the inactive Credit Card for certain credit cards prior to signing the credit card/partner credit card agreement to the notification address specified by the Main Card Holder on the credit card application form, and the intact envelope with the PIN code for the partner credit card to the notification address of the Partner Card Holder specified on the partner credit card application

form. In the event of personal deliveries other than in branches, the provisions of Sections 3.28 and 3.29 of these Terms and Conditions shall apply.

3.32. The Bank shall deliver the intact envelope with the Business Credit Card and the PIN code only to the Business Card Holder or his/her representative appearing in the branch in person. The Bank shall inform the Account Owner as soon as Business Credit Cards are ready.

3.32/A. The Bank shall bear the risk of sending the Bank Card and the PIN Code to the Card Holder, except the cases stipulated in point 3.30 and 3.31 above.

PIN code management

3.33. The Card Holder shall destroy the envelope containing the PIN code following receipt and memorizing thereof, and keep the PIN code secret. Should the PIN code be accessed by any unauthorized person – including the Bank's employees –, this shall be reported to the Bank without delay.

3.34. For Debit, Credit and Charge Bank Cards, the Card Holder – being in possession of the former PIN code – is entitled to change the PIN code of the Bank Card. The change of the PIN code is possible until the first day of the month preceeding the month of expiry of the Bank Card. In case the Bank has been requested by the Card Holder for the reproduction of the PIN code, the Card Holder is not entitled to change the PIN code until receipt of the above mentioned reproduced PIN code.

Activation of the Card

3.35. The Client shall sign his/her Bank Card immediately after receipt, and have it activated. The activation shall be completed: for newly issued Credit Cards, or in case of replacement cards by launching an activation process in the branch; for newly issued Debit Bank Cards or in case of replacement cards by using the Bank's Telefonbank service and in case of retail Main Card via UniCredit Mobil application, or in case of renewed Credit Card, Debit Bank Card – exclusively in cases and in the manner detailed in this Section – by the first use of the PIN code in pursuance of a Transaction completed successfully or rejected in lack of the coverage, or by using the Bank's TelefonBank service, or in case of retail Main Card via UniCredit Mobil application.

In case of business organizations, in the process of card activation through the Bank's Telefonbank service, the Bank shall only activate the Card following the identification of the Telephone Bank Card Holder (through the automatic system of the Telefonbank service).

In case of Private Individuals, in the process of card activation through the Bank's Telefonbank service, the Bank

shall only activate the Cards following identification of the Telephone Bank User Card Holder through the automatic system of the Telefonbank service.

In case of a Card activation initiated by retail client via UniCredit Mobil application, the Main Card Holder (Account Owner) shall complete the activation of the Main Card following the identified access to the UniCredit Mobil application. Solely the Main Card Holder is entitled to activate the Card via the UniCredit Mobil application, and only regarding (newly issued, replaced and renewed) Main Cards; Partner Cards can not be activated via Mobil application.

Further precondition to the above activation of the renewed Bank Card is, that at the time of its activation the previous Bank Card is neither temporarily/finally blocked nor cancelled. The use of the bank card activation function on domestic UniCredit ATM machines belong also to the PIN code entry-Transactions, which also activate the Bank Card. Transactions completed without entering the PIN code, the failed Transactions (not including Transactions rejected in lack of the coverage), and the Transactions described in Section 2.28. are not suitable for activation of the renewed Bank Cards. In case of card renewal, the Card Holder shall destroy the old Card (make it inappropriate for further use) following activation of the new Card. The Bank shall accept no liability for damages arising from any failure to do so.

- 3.36. The Card shall be valid until the 24th hour of the last day of the month appearing on the face.
- 3.37. the expiration date of any other Business Credit Cards. On the other hand, upon termination of the Credit Line Agreement between the Bank and the Account Owner, or upon notification on the cancellation thereof, the Business Credit Card(s) shall be deemed expired irrespective of the expiration date appearing on it/them.

Card renewal

- 3.40. If the Card Holder meets the prevailing requirements – and has not expressed any intention to the contrary at a branch by the end of the month preceding the month of expiration –, and following the positive outcome of the assessment conducted by the Bank, the Bank shall make a new Bank Card with unchanged rights available to the Card Holder upon expiration of the Card. If the Card Holder intends to stop using the Card before the expiration date appearing on the Card, he/she shall be obliged to cancel the Bank Card Agreement, and if the Card Holder intends to use the Card only until the expiration date appearing on the Card, he/she has to express this intention at a branch until the end of the month preceding the month of expiration, in which case the Bank Card Agreement will be ceased on the expiration date of the Card.

- 3.45. The Bank shall be entitled to refuse the renewal of the Bank Card with unchanged rights:
- 3.45.1. In the event specified in Section 8.2.3.

- 3.45.2. In the event that the Credit Line has not been utilized prior to the expiration of the Credit Card with the transactions initiated with the Credit Card.
- 3.46. Prior to the renewal of the Credit Card, the Bank may unilaterally decide upon proposing any reduction or increase in the Credit Line in accordance with the provisions of these Terms and Conditions pertaining to the unilateral modification of agreements, and in the event of an increase in the Credit Line in accordance with Section 3.57 thereof.

All features of the replacement card are the same as for the original Bank Card (the replacement Bank Card is assigned a new card number and a new PIN code is issued). If the card is replaced within two months prior to the card's expiration month, the expiration date of the replacement card will be the same as the extended expiration date of the replaced card. In the event that the Card Holder does not consent to the replacement of the Bank Card, the provisions of Section 8.2 of the present Terms and Conditions shall prevail.

Credit Card, Business Credit Card – special provisions Determining the amount of Credit Line

- 3.50. Based on the Account Owner's application, provided that a positive decision is made following credit

assessment, the Bank shall grant the Account Owner a Credit Line in an amount depending on the result of the credit assessment; this amount may be unilaterally modified by the Bank. The Credit Card Holder(s) or Business Credit Card Holder(s) may conduct Transactions using the Credit Card or the Business Credit Card up to the amount of the accompanying Credit Line or Business Card Credit Line in the manners provided for by the Bank. 3.56. Any instructions related to the Credit Card Account (not given by using the card), in particular those aimed at the modification of the Credit Line or at the issuance of further Business Credit Cards, shall be accepted by the Bank from the Account Owner only. Separate instructions for the modification of Credit Lines for individual Business Credit Cards shall be accepted from the Account Owner as well as from any person authorized by the Account Owner and having access to the Telefonbank service.

In the event of a request to increase the Credit Line, the Bank shall repeatedly assess the creditworthiness of the Account Owner – free of any fees, charges and other payment obligations – and request the submission of documents and information necessary for the assessment of the application. The increase of the Credit Line requires the modification of the Credit Line Agreement.
