Payments, Deliveries

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards.
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such a payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the default interest rate established by law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).
- (5) *Delivery:* The Delivery of the Underlying and the payment of a Supplemental Cash Amount shall be made within five Banking Days after the Final Payment Date (the "**Delivery Period**") to the Clearing System for credit to the accounts of the relevant depository banks of the Security Holders. All costs, incl. possible custody fees, exchange turnover taxes, stamp taxes, transaction fees, other taxes or levies (together the "**Delivery Costs**"), incurred as a result of the delivery of the Underlying, shall be borne by the respective Security Holder. Subject to the provisions of these Terms and Conditions,

the Underlying shall be delivered at the Security Holder's own risk. If the Final Payment Date of a delivery or payment is not a Banking Day, such delivery or payment shall be made on the next following Banking Day. Such delay will not constitute any entitlement to interest or other payments. The Issuer shall not be obliged to forward to the Security Holders any notifications or documents of the issuer of the Underlying that were provided to the Issuer prior to such delivery of the Underlying, even if such notifications or other documents refer to events that occurred after delivery of the Underlying. During the Delivery Period the Issuer shall not be obliged to exercise any rights under the Underlying.

- (6) *Transaction Disturbance:* If, as determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB), an event outside of the Issuer's control, which results in the Issuer not being able to deliver the Underlying pursuant to the Terms and Conditions of these Securities (a "**Transaction Disturbance**") and this Transaction Disturbance has occurred prior to delivery of the Underlying and continues to exist on the Final Payment Date, then the first day of the Delivery Period shall be postponed to the next Banking Day, on which no Transaction Disturbance exists. The Security Holders shall be notified accordingly pursuant to § 6 of the General Conditions. The Security Holders shall not be entitled to interest payment or other amounts, if a delay in the delivery of the Underlying occurs in accordance with this paragraph. The Issuer shall not be liable in this respect. In the event of a Transaction Disturbance, the Securities may, in its reasonable discretion (§ 315 et seq. BGB) of the Issuer and the Calculation Agent be redeemed at the Cash Value of the Redemption Price. The "**Cash Value of the Redemption Price**" is an amount determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB) on the basis of the stock exchange or market price of the Underlying on the Final Observation Date or, should such stock exchange or market prices not be available, the volume weighted average of the stock exchange or market prices in a representative period or, should such volume weighted average not be available, an amount determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on an Observation Date, the respective Observation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Observation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days the Calculation Agent shall determine in its reasonable discretion (§ 315 et seq. BGB) the respective Reference Price required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. Such Reference Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on this 9th Banking Day, taking into account the financial position of the Security Holders.

If within these 8 Banking Days traded Underlying Linked Derivatives expire and are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Underlying Linked Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. In that case, the expiration date for those Underlying Linked Derivatives is the respective Observation Date.

Adjustments, Type of Adjustment, Replacement Specification, Notifications, Legal Provisions

- (1) *Adjustments:* If an Adjustment Event occurs the Calculation Agent is authorised to adjust the Terms and Conditions of these Securities (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 in its reasonable discretion (§ 315 et seq. BGB), taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer, in particular if the circumstance that triggered the Adjustment Event has not only an insignificant impact on the economic characteristics of the Securities; whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).

Within the context of an Adjustment the Calculation Agent proceeds as follows:

- (a) *Adjustment in accordance with the Determining Futures Exchange:* In general, the Calculation Agent will undertake the Adjustment in terms of content and timing in a way that to the greatest extent matches the designated Adjustment by the Determining Futures Exchange regarding the Underlying Linked Derivatives. The Calculation Agent is, however, also authorised to make an Adjustment if there is no Adjustment made to the Underlying Linked Derivatives by the Determining Future Exchange. In this case the Calculation Agent will make the Adjustment, if any, in accordance with the rulebook of the Determining Futures Exchange with respect to the Underlying Linked Derivatives.
 - (b) *Deviating Adjustments:* In the following cases in particular the Calculation Agent is authorised to make Adjustments deviating from the Adjustments made by the Determining Futures Exchange in order to take into account the Adjustment Goal in an appropriate manner.
 - (i) The Adjustment envisaged by the Determining Futures Exchange regarding the Underlying Linked Derivatives is impossible for the Issuer or the Calculation Agent or technically not feasible within reasonable economic efforts; whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).
 - (ii) The Adjustment envisaged by the Determining Futures Exchange regarding the Underlying Linked Derivatives is unreasonable for Securities Holders, the Calculation Agent or the Issuer (e.g. because the Issuer would have to breach internal trading restrictions in order to hedge its payment obligations under the Securities); whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).
 - (iii) The Adjustment envisaged by the Determining Futures Exchange is not suitable to meet the Adjustment Goal; whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).
- (2) *Type of Adjustment:* In the context of an Adjustment the Calculation Agent may undertake in

particular the following measures in accordance with paragraph (1) above:

- (a) *Adjustment of Product and Underlying Data:* The Calculation Agent may redefine the Product and Underlying Data based on an adjustment factor (e.g. in case of a capital increase against cash contribution, issue of securities with options or conversion rights in shares, a capital increase from company funds, a distribution of special dividends or other measures undertaken by the company, that issued the Underlying or a third party, that impacts the computed value of the Underlying not only in an insignificant way, based on a change of a legal or economic situation, in particular a change of the fixed assets or equity of the company).
- (b) *Replacement of the Underlying:* In case of a take-over or a merger or similar measure with respect to the Underlying the Calculation Agent can replace the Underlying with the share of the successor of the issuer of the original Underlying or with another share of – inter alia – comparable liquidity and industry affiliation as the original Underlying (the "**Replacement Underlying**"). Furthermore, until completion of the take-over or merger (excluding), the Calculation Agent may determine that either the shares submitted for sale or submitted for exchange are to be the Replacement Underlying.

In case of a split or a similar measure with respect to the Underlying the Calculation Agent may determine (i) a basket of shares and/or securities or (ii) a basket of shares and/or securities and a cash component to be the Replacement Underlying. The Calculation Agent may exclusively select, in deviation from the Adjustment made by the Determining Futures Exchange, the share with the highest market capitalisation or another share from the basket of shares determined by the Determining Futures Exchange with – inter alia – comparable liquidity and industry affiliation as the original Underlying to be the Replacement Underlying. In this case the Calculation Agent will, if necessary, determine an adjustment factor by itself to meet the Adjustment Goal and will undertake an Adjustment according to paragraph 2 (a) above.

If the Calculation Agent designates a Replacement Underlying, from the Adjustment Date on (as defined in paragraph (4) below), every reference to Underlying in these Terms and Conditions shall be a reference to the Replacement Underlying, unless the context requires otherwise.

- (3) *Replacement Specification:* If a price of the Underlying published by the Relevant Exchange and required pursuant to the Terms and Conditions of these Securities is subsequently corrected and the correction (the "**Corrected Value**") will be published by the Relevant Exchange after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify the respective value by using the Corrected Value (the "**Replacement Specification**") and publish it pursuant to § 6 of the General Conditions.
- (4) *Notifications:* All Adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Securities Holder according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.
- (5) The application of §§ 313, 314 BGB remains reserved.

Had the aforementioned article not been applied, the leverage ratio of HVB Group as at 31 December 2020 would amount to 4.4% (in accordance with approved consolidated financial statements).

What are the key risks that are specific to the Issuer?

Risks related to the Issuer's financial situation: Risk that HVB Group will not be able to meet its payment obligations on time or in full or to obtain sufficient liquidity when required as well as that liquidity will only be available at higher interest rates, and the risk that the bank will only be able to liquidate assets on the market at a discount could create liquidity problems for HVB Group and thus could result in a limited ability to fund its activities and meet its minimum liquidity requirements.

Risks related to the Issuer's specific business activities: Risks arising from the normal business activities of HVB Group, which involve credit risk in the lending business, market risk in the trading business as well as risks from other business activities such as the real estate business activities of HVB Group could have an adverse impact on HVB Group's operating results, its assets and its financial situation.

General risks related to the Issuer's business operations: Risks from inadequate or failed internal processes, systems and people or from external events, risks caused by adverse reactions of stakeholders due to their altered perception of the bank, risks from unexpected adverse changes in the future earnings of the bank as well as risks from concentrations of risk and/or earnings positions could result in financial losses, a downgrade of the bank's rating and an increase in the business risk of the HVB Group.

Legal and regulatory risk: Changes of the regulatory and statutory environment of HVB could result in higher capital costs and a rise of costs for the implementation of regulatory requirements. In cases of non-compliance with regulatory requirements, (tax) laws, regulations, statutory provisions, agreements, mandatory practices and ethical standards, the public perception of HVB Group as well as its earnings and financial situation could be negatively affected.

Strategic and macroeconomic risk: Risks resulting from management either not recognising early enough or not correctly assessing significant developments or trends in the bank's environment and risks arising from negative economic developments in Germany and on the international financial and capital markets could have a negative effect on the assets, liabilities, financial position and profit or loss of HVB Group. It can be expected that the global spread of the coronavirus will weigh on global economic growth in the first half of the year. It is also possible that the burden will last longer depending on how the pandemic progresses.

Section 3 – Key information on the Securities

What are the main features of the Securities?

Product Type, Underlying and form of the Securities

Product Type: Express Plus Securities with cash settlement or physical delivery (with date-related Barrier observation) (Non-

Quanto)

Underlying: Mercedes-Benz Group AG (ISIN:DE0007100000)

The Securities are issued as bearer bonds within the meaning of § 793 German Civil Code (*Bürgerliches Gesetzbuch*). The Securities will be represented by a global note and are freely transferable. The international securities identification number (ISIN) of the Securities is set out in Section 1.

Redemption of the Securities

Automatic early redemption on the Early Payment Dates (k)

The Securities will be redeemed early on the relevant Early Payment Date (k), if an Early Redemption Event occurs. In this case, the Security Holder receives the respective Early Redemption Amount (k) on the respective Early Payment Date (k).

An Early Redemption Event means that the Reference Price on the respective Observation Date (k) is equal to or greater than the Early Redemption Level (k).

Early Redemption Level (k) means the product of the Early Redemption Factor (k) and the Initial Reference Price.

k	Observation Date (k)	Early Payment Date (k)	Early Redemption Factor (k)	Early Redemption Amount (k)
1	09.03.2023	16.03.2023	95%	EUR 1,120.00

3	10.03.2025	17.03.2025	95%	EUR 1,360.00

Redemption as at the Final Payment Date

If the Securities are not redeemed early, the Securities will be redeemed on the Final Payment Date as follows:

- (A) A Barrier Event has not occurred. The Security Holder receives the Redemption Amount in the Specified Currency which is equal to the Maximum Amount.
- (B) A Barrier Event has occurred and the Final Reference Price is equal to or greater than the Strike. The Security Holder receives the Redemption Amount in the Specified Currency which is equal to the Nominal Amount.
- (C) A Barrier Event has occurred and the Final Reference Price is lower than the Strike. The Security Holder receives delivery of the Underlying in a quantity expressed by the Ratio per Security. If the Ratio leads to a fraction of the Underlying, a cash amount expressed in the Specified Currency is paid instead.

Additional definitions and product terms

Barrier means the product of the Barrier Level and the Initial Reference Price.

Barrier Event means that the Final Reference Price is lower than the Barrier.

Final Reference Price means the Reference Price of the Underlying determined on the Final Observation Date.

Initial Reference Price means the Reference Price of the Underlying determined on the Initial Observation Date.

Ratio means the quotient of the Nominal Amount divided by the Strike.

Strike means the product of the Strike Level and the Initial Reference Price.

Reference Price	Barrier Level	Strike Level	Maximum Amount	Initial Observation Date	Final Observation Date	Final Payment Date
Closing price	75%	100%	EUR 1,480.00	11.03.2022	09.03.2026	16.03.2026

Extraordinary termination right: The Issuer has the right to extraordinary terminate the Securities at the fair market value of the Securities upon the occurrence of certain Call Events (for example, if price quotation of the Underlying on the relevant exchange is finally ceased).

Adjustment right: The Terms and Conditions of the Securities may be adjusted by the Calculation Agent if an Adjustment Event occurs (for example, the company that issued the Underlying performs a corporate action).

Status of the Securities: The obligations under the Securities constitute direct and unsecured obligations of the Issuer and rank *pari passu* with all other unsecured and unsubordinated obligations of the Issuer. In the case of a resolution (bail-in), the Securities will, within the liability cascade, be considered only after all non-preferred liabilities of the Issuer.

Where will the Securities be traded?

No application for the Securities to be admitted to trading has been made and no such application is intended.

What are the key risks that are specific to the Securities?

The specific risk factors related to the Securities, which in the view of the Issuer are material, are described below:

Risk related to the rank and characteristic of the Securities in the case of a failure of the Issuer: The Security Holders bear the risk of the insolvency of the Issuer. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail.

Specific Risks related to the payment profile of the Securities: There is the particular risk that the price of the Underlying falls and consequently the Security Holder will suffer a significant loss of his invested capital. A total loss is possible. Falling prices of the Underlying will have a negative impact on the Security Holder, especially if a Barrier Event occurs.

Risks relating to Securities with physical delivery: The risk of price losses of the Underlying does not end with its delivery but only with its sale by the Security Holder. There is no automatic sale of the delivered quantity of the Underlying.

Risks arising from the Terms and Conditions of the Securities: The Security Holders bear a risk of loss if the Securities are terminated by the Issuer. The Securities will then be redeemed at their fair market value of the Securities. This may be lower than the amount that the Security Holder would have received if there had been no extraordinary termination of the Securities. In addition, Security Holders bear a reinvestment risk. Moreover, the Security Holders bear a risk of loss if an adjustment of the Terms and Conditions is made or if a market disruption occurs.

Risks related to the investment in, the holding and selling of the Securities: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to purchase or to sell the Securities at a specific time or for a specific price.

Risks related to Shares as Underlying: The Securities are associated with similar risks for the Security Holders as in case of a direct investment in the shares specified as Underlying. The price of a share can fall sharply or it can become worthless, e.g. due to the insolvency of the issuer of the share.

Melyek a kibocsátóra jellemző legfontosabb kockázatok?

A Kibocsátó pénzügyi helyzetéhez kapcsolódó kockázatok: Annak kockázata, hogy a HVB Csoport nem lesz képes fizetési kötelezettségeit teljeskörűen vagy esedékességkor teljesíteni, vagy elegendő likviditást szerezni, amikor szükséges, valamint hogy a likviditás csak magasabb kamatlábak mellett lesz elérhető, valamint annak a kockázata, hogy a bank csak diszkontált áron lesz képes értékesíteni a piacon a vagyontárgyait, likviditási problémákat okozhat a HVB Csoport számára, és ez azt eredményezheti, hogy csak korlátozottan lesz képes finanszírozni a tevékenységeit és teljesíteni minimális likviditási követelményeit.

A Kibocsátó sajátos üzleti tevékenységéhez kapcsolódó kockázatok: A HVB Csoport szokásos üzleti tevékenységéből eredő kockázatok, amely magában foglalja a hitelkockázatot a hitelezési üzletágban, a piaci kockázatot a kereskedési tevékenységben, valamint más üzleti tevékenységekből eredő kockázatok, mint például a HVB Csoport ingatlanokkal kapcsolatos üzleti tevékenysége, hátrányos hatással járhatnak a HVB Csoport működési eredményeire, eszközeire és pénzügyi helyzetére.

A Kibocsátó üzleti működéséhez kapcsolódó általános kockázatok: Nem megfelelő vagy hibás belső folyamatok, rendszerek és emberek kockázata vagy külső események kockázata, az érintett feleknek a bankra vonatkozó megváltozott megítélése miatt adott negatív reakciójának kockázata, a bank jövőbeli hasznában bekövetkező váratlan, hátrányos változásokból eredő kockázatok, valamint a kockázati és/vagy haszon pozíciók koncentrációjából eredő kockázatok pénzügyi veszteségeket, a bank leminősítését és a HVB Csoport üzleti kockázatának növekedését eredményezhetik.

Jogi és szabályozási kockázat: A HVB szabályozási és jogszabályi környezetének megváltozása magasabb tőke költségeket és azt eredményezheti, hogy a szabályozási követelmények megvalósítása megemeli a költségeket. A szabályozási követelmények, (adó) jogszabályok, szabályzatok, jogszabályi rendelkezések, megállapodások, kötelező gyakorlatok és etikai normák be nem tartása a HVB Csoport nyilvános megítélését, valamint eredmény- és pénzügyi helyzetét negatívan érintheti.

Stratégiai és makrogazdasági kockázatok: Az abból eredő kockázat, hogy a vezetés nem ismeri fel elég korán vagy nem értékeli helyesen a jelentős változásokat vagy trendeket a bank környezetében, valamint a németországi negatív gazdasági fejleményekkel és a nemzetközi pénzügyi és tőkepiacok fejleményeivel kapcsolatos kockázatok negatív hatással bírhatnak a HVB Csoport eszközeire, kötelezettségeire, pénzügyi helyzetére és nyereségére vagy veszteségére. Várható, hogy a koronavírus globális terjedése kedvezőtlenül fog hatni a globális gazdasági növekedésre az év első felében. Az is lehetséges, hogy ez a teher tovább fog tartani a járvány lefolyásától függően.

Az Értékpapírok visszaváltása

Automatikus lejárat előtti visszaváltás a Korai Kifizetési Napokon (k)

Amennyiben Korai Visszaváltási Esemény következik be, az Értékpapírok lejárat előtti visszaváltására kerül sor a megfelelő Korai Kifizetési Napon (k). Ebben az esetben az Értékpapír-tulajdonos a Korai Visszaváltási Összeget (k) kapja meg a megfelelő Korai Kifizetési Napon (k).

Korai Visszaváltási Esemény az, ha a megfelelő Megfigyelési Napon (k) a Referenciaár a megfelelő Korai Visszaváltási Szinttel (k) egyenlő vagy annál magasabb.

Korai Visszaváltási Szint (k): a Korai Visszaváltási Tényező (k) és az Induló Referenciaár szorzata.

k	Megfigyelési Nap (k)	Korai Kifizetési Nap (k)	Korai Visszaváltási Tényező (k)	Korai Visszaváltási Összeg (k)

Visszaváltás a Végző Kifizetési Napon

Ha az Értékpapírok lejárat előtti visszaváltására nem kerül sor, az Értékpapírok visszaváltására a Végző Kifizetési Napon kerül sor a következők szerint:

- (A) Nem következett be Korlátozási Esemény. Az Értékpapír-tulajdonos a Visszaváltási Összeget kapja meg a Meghatározott Pénznemben, amely megegyezik a Maximum Összeggel.
- (B) Korlátozási Esemény következett be és a Végző Referenciaár nagyobb, mint a Kötési Árfolyam vagy azzal megegyezik. Az Értékpapír-tulajdonos a Visszaváltási Összeget kapja meg a Meghatározott Pénznemben, amely megegyezik a Névértékkel.
- (C) Korlátozási Esemény következett be és a Végző Referenciaár kisebb, mint a Kötési Árfolyam. Az Értékpapír-tulajdonos a Mögöttes Eszköz átadását kapja meg, az Arány szerint Értékpapíronként meghatározott mennyiségben. Ha az Arány a Mögöttes Eszköz tört részéhez vezet, akkor a Meghatározott Pénznemben kifejezett készpénz összeg kifizetésére kerül sor helyette.

Rendkívüli megszüntetési jog: Bizonyos Visszahívási Események bekövetkezésekor a Kibocsátó jogosult rendkívüli módon megszüntetni az Értékpapírokat, az Értékpapírok valós piaci értékén (például, ha a Mögöttes Eszköz árjegyzése végleg megszűnik az irányadó tőzsdén).

Korrektíós jog: Korrektíós Esemény bekövetkezése esetén a Számítási Ügynök módosíthatja az Értékpapírokra vonatkozó Feltételeket (például, a Mögöttes Eszközt kibocsátó társaság vállalati intézkedéseket hajt végre).

Az Értékpapírok státusza: Az Értékpapírok szerinti kötelezettségek a Kibocsátónak közvetlen és nem biztosított kötelezettséget jelentik, és azok a Kibocsátó más nem biztosított és nem hátrasorolt kötelezettségeivel egyenrangúak. Szanálás (feltőkésítés) esetén, az Értékpapírok – a felelősségi rendszeren belül – a Kibocsátó valamennyi, nem elsőbbségi kötelezettsége után kerülnek figyelembe vételre.

Hol kereskednek az Értékpapírokkal?

Az Értékpapírokra vonatkozóan nem került benyújtása kereskedési rendszerbe történő bevezetés iránti kérelem és nincs tervezve ilyen kérelem benyújtása.

Melyek az Értékpapírokra vonatkozó legfontosabb kockázatok?

Az Értékpapírokra vonatkozó sajátos kockázati tényezők, amelyek a Kibocsátó szerint lényegesek, a következőkben kerülnek bemutatásra:

Az Értékpapírok rangsorolásához és jellegzetességeihez kapcsolódó kockázatok a Kibocsátó csődbe menetele esetén: Az Értékpapír-tulajdonosok viselik a Kibocsátó fizetéseképtelenségének a kockázatát. Ezen felül, az Értékpapír-tulajdonosok a Kibocsátóra vonatkozó szanalási intézkedések hatálya alá kerülhetnek, amennyiben a Kibocsátó csődbe megy vagy valószínű, hogy csődbe fog menni.

Az Értékpapírok fizetési profiljához kapcsolódó kockázatok: Külön kockázatot jelent, hogy a Mögöttes Eszköz ára csökken, amelynek következtében az Értékpapír-tulajdonos jelentős veszteséget szenved el a befektetett tőkéjével kapcsolatban. A befektetett tőke teljes elvesztése is lehetséges. A Mögöttes Eszköz árának esése negatív hatással bír az Értékpapír-tulajdonosra, különösen akkor, ha Korlátozási Esemény következik be.

Fizikailag átadásra kerülő Értékpapírokhoz kapcsolódó kockázatok: A Mögöttes Eszköz árfolyamveszteségének kockázata nem ér véget annak átadásával, hanem csak akkor, amikor a Mögöttes Eszközt az Értékpapír-tulajdonos eladja. Nem kerül sor automatikusan az adott mennyiségben átadott Mögöttes Eszköz eladására. **Az Értékpapírok Feltételeiből származó kockázatok:** Az Értékpapír-tulajdonos viseli annak kockázatát, ha az Értékpapírok a Kibocsátó által megszüntetésre kerülnek. Az Értékpapírok visszaváltására ekkor az Értékpapírok valós piaci értékén kerül sor. Ez az érték alacsonyabb lehet annál, mint az az összeg, amit az Értékpapír-tulajdonos akkor kapott volna, ha nem került volna sor az Értékpapírok rendkívüli megszüntetésére. Ezen felül, az Értékpapír-tulajdonosok viselik az újbóli befektetés kockázatát. Továbbá, az Értékpapír-tulajdonosok viselik a veszteség kockázatát, amennyiben a Feltételek kiigazításra kerülnek vagy piaci zavar következik be.

Az Értékpapírokba történő befektetéshez, az Értékpapírok tartásához és eladásához kapcsolódó kockázatok: Az Értékpapír-tulajdonosok viselik annak kockázatát, hogy az Értékpapírok piaci értéke azok futamideje alatt jelentős ingadozások alá eshet, és hogy az Értékpapír-tulajdonos nem képes meghatározott időben vagy meghatározott áron megvenni vagy eladni az Értékpapírokat.

Részvényekhez, mint Mögöttes Eszközhöz kapcsolódó kockázatok: Az Értékpapír-tulajdonosok számára az Értékpapírok hasonló kockázatokkal járnak, mint a Mögöttes Eszközként meghatározott részvénybe történő közvetlen befektetés. Egy részvény ára ugrásszerűen eshet vagy értéktelenné válhat, például a részvény kibocsátójának fizetéseképtelensége miatt.
